SOCIAL AND PERSONAL HEALTH COMMITTEE BUSY

department. The meeting was presided over by Mayor S. S. McNinch and

department. The meeting was presided over by Mayer S. S. McNinch and the following named members were present: Col. A. L. Smith, J. I. Blakely, J. H. Wearn, John J. Williams, secretary.

The first mater demanding the attention of the hoard was a petition presented by Mr. H. M. Irwin, requesting that the ordinance requiring all residents on West Trade street, from the railroad to the city limits and on North Cedar street, from Trade to Fifth street, to connect with the city sewer lines be enforced at once. Mr. Irwin appeared indignant at the failure of the board to enforce the law heretofore and demanded to know its reason for the delay. He informed the members that he had considered securing the serivces of a lawyer and issuing a writ of mandate to have them carry out the law to the letter. The members returned silent thanks that the mandate had not been issued, smiled sweetly at Mr. Irwin, and entered into a discussion of the matter.

After much discussion, during matter.

After much discussion, during which it was stated that a written order giving 30 days notice to property owners was required before any summary action could be taken in regard to the failure of owners to connect with the sewer line, a res-olution was passed instructing the head of the sanitary department to serve legal, written notices on all people on every street in the city where sewer connection is possible to make the said connections, leaving it in the discretion of the health officer as to when these notices shall be served in the various localities, and in cases where the demand is not complied with, to take such action as the law provides.

DR. HAWLEY'S REPORT. After the above matter was disposed of Dr. F. O. Hawley, city physician and head of the city's sanitary department, submitted his report. The report stated that the health of the city physician, be relieved of the ber of fever cases, compared with the population is small. A recommendation in the report that was not Miss Onnie Andrews, of Greensbore, is visiting Mrs. C. W. Parker, at Piedmont Park. Miss Andrews is a daughter of Mr. E. M. Andrews, a formerly lived in Charlotte.

The formerly lived in Charlotte.

The condition is small. A recommendation in the report that was not acted upon was: "I recommend that the ity physician be relived of the approving of all bills in the sanitary department except those in which he concerned and also from purchases is directly concerned and also from being required to make purchases outside of medicines and surgical supplies necessary to his department. The chairman has to approve these bills and the O. K, of the officer making the purchase should be sufficient.

Acting upon a recommendation in Dr. Hawley's report the board passed a resolution requiring the undertakers of the city to file with the city clerk a record of all dead persons shipped from the city, giving all designed. death atc done in the case of other deaths and

burials in the city cemetery.

Dr. Hawley stated that there is city ordinance requiring that all births be reported to the city clerk, who should keep a record of them and suggested that this ordinance be en-forced. The members of the board looked at each other guiltily and deelded rather quickly that the ordi-nance in question is out-of-date and no good anyhow.

THE MANUFACTURE OF ICE DISCUSSED.

It was during a rather informal discussion of health topics in gen-eral that the ice business was spoken of. 'The ice company purchased only \$30 worth of water from the city water-works from July 1st, last year, to May, this year," said one member.

"They must be getting water from somewhere else," stated another. "They use water from the old Chinquepin Gold Mine," volunteered nother member.

another member.
"There's something wrong out
there," said Dr. Hawley.
It was then stated that the authorities of the Standard Ice Company
claimed that all water used in making ice was boiled and condensed again and that the water from the old mine was used only for condensing the steam from which the ice was to be

After the matter had been discussed pro and con a resolution was adopted instructing the city physician to confer with the city attorney and investigate the plant of the ice company to see what water is used in the manufacture of ice and then to take such action as is necessary, if any is necessary.

Mr. Blakely reported the sale of two mules belonging to the sanitary department for \$120.

Col. Smith, chairman of the fire committee, reported that during the month of July there were five alarms and that the total damage done was \$557. All horses and apparatus were After the matter had been discus-

DID YOU GET ONE?

Ten Gross, or 120 Dozen, or 1,440 Bottles of Mrs. Joe Berson's Remedy has been sold this week. Everybody ought to take Mrs. Joe Person's Remedy who needs a tonic. Now is the time you need it. You ought to keep it in your house all the time. Read the following:

For about eight or ten years I was subject to severe attacks of ecsema, which would last for several weeks. I would try loca treatments and doctors' medicine, which would relieve for a while, but it would always manent effect. I then determined to try Mrs. Joe Person's Remedy two years ago. I took it regularly for six months, using a dozen and a half bottles, and it made a perfect cure of me. It has been over a year since I stopped taking the Remedy, and I have never had a touch of the trouble since, and my general health
