A REMARKABLE INSINUATION

A Taint on a Congressional Nomination—Industrial Club Organized—Surrenders to Sheriff—Claim on the Government—The Cumberland Fair.

Fayetteville, Aug. 3.—Two or three days ago a paragraph appeared in a Raleigh paper giving a rumor that the defeat of Patterson for Congress last week was due to the opposition of the Atlantic Coast Line Railway Company.

This rumor is a piece of dynamite. It casts a taint on the nomination of Godwin; it is an insult to the integrity of the Democrats of the sixth district, and is a very offensive insinuation against a great railroad corporation.

What method did the industrial club adopt to defeat Patterson, and nominate Godwin? Did it have emissaries in the convention hall, dicker with the yeomanry of these country districts, and handing out bribes to the members?

Did some of the lobbyist sit dithering into the ear of Godwin and extract a pledge from him? At the State convention in 1904 it was charged that the Southern Railway had an extensive plan against Stedman in favor of Glenn, and the accusation was openly made in the hotels and on the streets that the road was transporting Glenn delegates and "rooters" from Salisbury to all charges.

The correspondent is not a special champion of the railroads; though, heaven knows, if they were as black as the devil, they could not stagger under his pen. He does not believe that the Atlantic Coast Line is opposed to the upper Cape Fear navigation scheme.

The immense benefits which would result from the completion of the extension of the coast line, and the fact that the road is not a special champion of the railroads, though, heaven knows, if they were as black as the devil, they could not stagger under his pen.

Wednesday evening an industrial club was organized in this city, as follows: J. H. Anderson, president; J. F. Harrison, vice president; J. B. Tellinghaas, secretary and treasurer; M. E. J. Hale, Dr. J. V. McGowan, Leighton Huske, H. Lutterloh, J. O. Ellington, Dr. McNeill, directors.

It will combine pleasant social features with its main industrial objects. The club sent a message of congratulation to President Mills, of the High and Southport Railway, on the completion of his road to this point.

George Raynor, charged with blocking whiskey in company with Brockton Huske, in Gaston, S. C., on Sunday, surrendered himself to Sheriff Marsh yesterday.

Jacob West, who claims to have been a Union man during the civil war, is asking compensation from the Federal troops. H. M. Lamar, a government attorney, is here to examine the claim before H. McD. Robinson, special commissioner.

The political situation in Robeson county is not lacking in interest and every new development adds interest to the situation. The Robesonian convention will be held in Fayetteville, S. C., on the 10th of the month.

Mr. Stephen McIntyre has a signed communication in to-day's issue of the Robesonian in regard to the Robesonian convention, that will be read with interest in the District. Some have criticized Mr. McIntyre for not lending his support to Mr. Patterson in the recent congressional election.
