CONEY ISLAND CAR HIOTS.

Day and night for nearly a week a Brooklyn, N. Y., street railway monopoly and the public have been clashing over a Supreme Court decision that inder the law the railway corporation is not entitled to collect more than a five-cent fare for a single trip on any of its lines. The accompanying view shows one of the many scenes enacted along the lines between New York and Coney Island, in which railroad employes, the police and the traveling public participated in acts of disorder and violence which led to hundreds of clubbings, scores of arrests and finally the death of a young woman. Politics is playing a lively part in the situation and it may be many weeks before complete order is restored.

WATER FOR LYNCHERS.

President McNeill, of the State Picemen's Association, Suggests That a Gold Dreaching of Mole by First Pepariments Would be More Effective Than the Bullets of the Millia.

To the Editor of The Observer:
I have just read the letter and ordered of Governor Glenn to the sheriff and captains of military companies, in the several towns and cities of the State, and also your very able editoral commending the same, all or which reads very nice and proper. I have just returned from Roanoke, Va., where, not a great while ago, the military fired upon a hody of citizens, killing several and wounding many more, and I can tell you that the memory of that scene is indeed a bitter one and will never be forgotten or forgiven. WHERE BAD MEN BOAM.

"Big Jim" Moore, the Smiths and Other Mep Who Terrorised a Certain Section of This State—Stokes County Still a County Where Murderers Roam at Large and Where Still Houses Are Operated Within Sight of the Highway.

To the Editor of The Observer:

The dispersement of unlawful assemblies by the use of fire streams is no experiment, and when aggressively used by determined men has never been known to fail. The writer has seen one angry, riotous, fighting snob by the use of only two well directed fire streams changed in a moment into a scene of merriment, each fellow laughing at the other fellow who get if in the neck, whilst the police picked up the leaders. Nearly every mob is composed of from 75 to 95 per cent. of rubber-necks and innocent citizens, which will giways seek cover vote. In those precincts where it was most generally known and where the

not generally known, hence his small vote. In those precincts where it was most generally known and where the largest vote was cast I received a majority. In Marion, where every one knew of his candidacy, I received a majority, contrary to my own expectations. The same occurred at Oid Fort. The truth is, I lost a large number of votes just because he was not known to be a candidate.

It has been the custom in this district, which is tomposed of McDowell. Burke, Caldwell and Alexander, and which has two Senators, to rotate, giving McDowell and Burke each a candidate at the next election. According to the custom McDowell and Burke are entitled to name the candidates this year, It has been the custom heratofore, where a county in the district has two candidates, the one receiving the larger number of votes in the county convention receives the endorsement of his county and is deciared the nominee of the Sehatorial convention. This has been the custom and should still be so. There is no question of fraud or unfairness and there is no reason why Dr. Morphew should not abide by the decision of the voters in McDowell. By continuing the fight he endangers the success of the party and I do not think the Senatorial convention can afford to disregard the wishes of the Democrate voters of this county. All I ask is fair treatment and I do not think the Senatorial convention will give it to me when they know the facts. If there is a disturbance created, I wish it understood that I am not to blame. I think the above explanation is due to the voters in this Senatorial district, hence I set that you give it space.

WHERE DOES THE TROUBLE LIE?

Courts Charged With Laxity in Dealing With Negro Blind Tiggs.

To the Editor of The Observer:

I read last week-the article in The Observer signed "Citizen." I cannot say as to our juries not being honest but I must say that squisthing is wrong somewhere. Last spring I had a segro tonant on my place near here. Neighbors said he was seiling whiskey. I thought he was but could not catch him. About June 1st he delivered a buggy load from Sallsbury in the town of Davidson and at a church near the place. Our mayor had the town marshal to arrest him on Monday. Two witnesses swore they bought it. One said he got a pint, one a quart, one said he got a pint, one a quart, one said he got a pint, one a quart, one said he got a pint, one a quart, one said he got a pint, one in the sum of \$206. I knew he was guilty and let him go to jall and had a very hard time getting hands to work his crop. Last Priday he came hume to see how the crop was deigs. Our court turned him off free, after he had been resting and eating off the county-for a time.

ENGLISH GRAMMAR IN SCHOOLS. This Subject is Relegated to the Background Along With Our Own History to Give Way to a "Broad Curriculum."

To the Editor of The Observer: Miss Jennie P. Buford's recent discussion of text-books was well wor-thy of most careful consideration, and I particularly desire to endorse the regret expressed over the fact that the teaching of English grammar is

not given enough attention.

Along with the history of our own State, it (for some inscrutable reason) has been relegated to the background of the so-called modern broad and progressive course of study. The average of the students who enter colleges and the students who enter colleges are colleges and the students are colleges are colleges are colleges and the students are colleges are colleges are colleges are colleges are colleges and the students are colleges are co lege can not write even a creditable informal letter and can not talk as

well as he can write.

A great deal of time, too much, probably, is given to language study and writing, but my observation is that the sim usually is "show" rather than efficiency, and this same spirit is too prevalent generally in the work of our schools. Many teachers work themselves down in correcting "paof our schools. Many teachers work themselves down in correcting "papers" in order to make them presentable, and these papers aften represent the teacher's ability at least as much as that of the child, and the teacher thereby gets most of the drill and improvement. It is to be feared that our schools are spreading and luxuriating in outward semblance to the detriment of the heart of the work.

Many—Week's Agrivals at This Popular Resort.

Special to The Observer.

Vade Mecum, Aug. 21.—One of the most delightful social features of the season at Vade Mecum was the baby party Friday night. The party was planned by Mrs. Vollers, of Wilmington. Misses Vollers, Shipley, Shober, Mugge, Ortman, Shaw, Mrs. Oliver and Messrs, Gene Hill, Ed Whitaker and June Potts were the babies. The nurses were Misses Millner, Mrs. Kearnes and Miss Whitaker, who had quite a time taking care of the babies, who were continually in a bad humor and crying for the bottles. The "babies" marched in, led by Miss Shipley and Mr. Potts, while Mrs. Vollers brought up the rear with a baby carriage. Several of the prettiest german figures were danced.

Another evening of delight was afforded the guests when some of the young men, under the direction of Prof. Whitaker, impersonated the ladies, the old-time darkey, the newspaper characters, Buster Brown and the Yellow Kid. Mr. Rudolph Carlisle, as Happy Hooligan, was declared the finest character in the lot.
