

# THE TRUE AND THE FALSE

---

Is it any wonder that there are hundreds of men in the South to-day who are wasting their lives in dissipation when the absolute failure of the so-called whisky cures is taken into consideration? Many of these men have paid their good money for a hypodermic treatment, or a home cure that did not cure. So far they have not been able to distinguish between the True and the False, as the unsatisfactory results and the bad after effects of the so-called cures have brought all treatments into disrepute in the minds of many people.

The only successful method of curing the liquor habit without the bad after effects is the Dr. McKanna treatment. It has been practiced ten years exclusively by Dr. McKanna and in all the ten years there has not been a single case treated where the desire for liquor was not effectually destroyed, and not a single death occurred while a patient was under treatment.

**There is the True and the False, and investigation will prove it. Compare the records of the so-called cures with the Dr. McKanna treatment and it will not be hard to distinguish between the good and the bad. Dr. McKanna refers to his thousands of ex-patients for Evidence of the Success of His Treatment.**

Dr. McKanna is the only man in the world who Cures the Liquor Habit in three days. His treatment positively destroys all desire or craving for liquor and builds up the run down constitution, fitting a man for business. No dangerous hypodermic or harmful drugs used.

WHILE IN OUR SANITARIUM YOU ARE AS STRICTLY PRIVATE AS IN YOUR OWN HOME.
