Washington, Sept. 5.—A new bushoo has arisen to plague the Roosevett administration. It goes without asying, almost, that it is raised at an inopportune time. In a nutsfielt, it is an effort on the part of the American Federation of Labor to unionize the possial clerks of the country. A beginning has been made in Chicago and it is expected that the effort will be extended, as rapidly as may be practicable, to other large cities of the country.

The movement is likely to be embarrassing, in a political sense, to like administration, as it would be, inevitably, to any administration of whatever political party. Permission to organize the possal clerks of the country into unions would not be in accordance with the previous policy of the administration, although there is no hard and fast rule against such an organization.

If the President or his Postmaster General, Mr. Cortelyou, should antagonize openity the unionizing of the postal clerks, the administration would be placed in the attitude of opposition to organized labor, the making of the present attitude of Samuel Gompers, president of the American Federation of Labor, and some other leaders of organized labor, the making of the present attitude of Samuel Gompers, president of the American Federation of Labor, and some other leaders of organized labor, the making of the present attitude of Samuel Gompers, president of the American Federation of Labor, and some other leaders of organized labor, the making of the present attitude of Samuel Gompers, president of the American Federation of Labor, and some other leaders of organized labor, the making of the present attitude of organized labor, the making of the present attitude of organized labor, the making of the present attitude of present in the was greated by the American Federation of Labor, and some other leaders of organized labor, the making of the present attitude of samuel Gompers, president of the American Federation of Labor, and some other leaders of

Gastonia, Sept. 5.—For some time past there has been no little talk about the proposed removal of the Carolina & Northwestern Railway shops from Chester. S. C. to Gastonia. It is a well known fact that the present location at the Chester end of the road is entirely unsatisfactory, being too crowded for convenience. A rumor has been affoat to the effect that the company has been considering the plant of the Gastonia Cotton Mill as a possible location and if the management will sell at a reasonable price, it is very probable that the machinery will be torn out and that the old building will be fitted up with the necessary equipment for a first-class railroad shop. The business men of the town are waxing warm on the subject. Monday night a large crowd attended a mass meeting in the rooms of the Commercial Club to see what the drift of opinion was in regard to the matter. Everybody seemed interested sad willing that the shops should come. A committee was appointed to confer with the road officials to find out what terms would indice them to make Gastonia their home. WILSON SUPERIOR COURT.

Docket Contains One Murder Case— Palling Off in Cotton Receipts and Increase in Tobacco Receipts. Special to The Observer.

Wilson, Sept. 5.—Wilson county Su-perior Court is in mession this week, Judge Long, of Statesville, presiding. The most important case to be tried at this term is State vs. John King, charged with the murder of Charles Foster, another negro. King will be tried for murder in the first degree. The Atlantic Christian College Foster, another negro. King will be tried for murder in the first degree. The Atlantic Christian College opened this week with a very fixtering attendance. The prospects are said to be the brightest in the history of the institution. All the dormitory room has been engaged. The faculty has been considerably strengthened since the last session.

The public cotton weigher says that, up to August 1st, 11,809 bales of cotton were received on the Wilson market. The receipts for the year previous exceeded these figures by about 3,000 bales.

Mr. R. P. Watson, president of the hobacco board of trade, says that, during August. 1,914,000 pounds of tobacco were sold on the Wilson market at an average price of \$8.75 per hundred. Both the amount sold and the price pails exceed those of August last year.

The postoffice receipts are said to be a good indext to a town's growth. The receipts at the Wilson office for August amounted to \$125 more than the receipts for same month last year.

pariment at Washington and also by the Senate committee and the Senate of the United States decided in my favor and I was appointed and confirmed postmaster at Gastonia. Now, does it not, from every reasonable standpoint, appear that this should be the end of this matter?

It does, however, appear outrageous that those self-constituted dictators should have been ignored in such a manner. But should I be censured for this?

The office was tendered me without being asked for by me and I accepted it. As to the present service of the postoffice I consider the unbiased pairons of the office the most competent judges and, if they are not generally satisfied. I have not been informed of it.

In regard to my defaulting assistant: I was not until recently aware that there was such a charge against him, and I do not yet understand that there is any ground for such charges. I have all the timebeen under the impression that excessive drinking was the cause of this trouble at the Dallas postoffice. Having reformed in this respect, he has not, as I am informed, drank any at all for four years. I would not see any objection on this line to his being assistant postmaster.

As to the much-talked-of negro clerk: I see nothing in this except that, according to the late postmaster's statement, he preferred to over-step the law rather than swear him in, while I preferred to awar him in, not as a regular clerk, as it is alleged, but to carry mails to and from the railroad, act as janitor and do such other work about the office as is required. I did this rather than violate the law and my official oath as postmaster.

I very much regref that it appears necessary that I should ask the favor of you to publish this.

Troubles — A Charlotte Shows How to Care Them.

Many people never suspect their kidneys. If suffering from a lame, weak or aching back they think that it is only a muscular weakness; when urinary trouble sets in they think it will soon correct itself! And so it is with all the other symptoms of kidney disorders. That is just where the danger lies. You must cure these troubles or they lead to diabetes or Bright's disease. The best remedy to use is Doan's Kidney Pills. It cures all fils which are caused by weak or diseased kidneys. Charlotte people testify to permanent cures.

C. W. Bradshaw, manufacturer of rubber stamps, living at 308 South Church St., says: "Sometimes, the backache from which I was a continual sufferer became so severe that I could not attend to business. The complaint had been with me for a number of years when I first heard of Doan's Kidney Pills. I went to R. H. Jordan & Co.'s drug store, got a box and took them according to directions. They removed the pain and made my back strong and reliable again. They have benefited me in every way, and I am sure they would do the same for any sufferer from backache or from other symptoms of kidney complaint."

FREEDOM AND **SELF-RESTRAINT**

Developed in Their Finest Combination at Converse College, Spartanburg, S. C.

At Converse College, the girls are not cloistered with the rigid strictness auspected by many close observers. Nothing that contributes to gentleness, courtesy and unobstrusive behavior in the girls is too small to be commended with affectionate admonition, at the same time we frankly believe in the conventionalities; we realize that they are eminently safe, but we also realize that a college girl is not to be cloistened, consequently the due social liberties are always allowed. The system of discipline in force here is a system of self government, developing a sense of responsibility and self-restraint, which becomes and remains for life an admirable part of the character of every girl.

Converse is elegantly and most comfortably housed, and splendidly located for health. Far enough below the flus Ridge crest to be protected greatly from the severe northern blasts, it is yet high enough above the sea to escape the apervating heat of the lower levels.

A first class gnyansium assures abundant beneficial exercise at all times.

The auditorium building contains the 3t rootes of the music department and the \$10,000 organ. The class rooms and laboratories are well lighted and practically equipped, and the students rooms are fit homes for refined young women.

From every point of view, from that of parent and child, Converse is an ideal College.
