Caldwell and Rev. Dr. Scott made short talks on the beautiful and useful life of this distinguished lady and her position during the trying duys of the Confederacy. The meeting, which was a very interesting one, was closed with a prayer by Rev. Dr. C. M. Henry Robinson and a negro by the Richards.

Fayetteville, Oct. 23.—With good weather, the Cumberland County Fair may be confidently expected to be one tensive, the racing fine and the attendance will embrace people from the Cape Fear and Pee Dee sections, as well as from upper South Caro lina. It is understood that the new iron bridge on the Altantic Coast Line Railroad over the Cape Fear river in the northern outskirts of the city will be a very handsome structure, equal to the one over the Cape Fear at the foot of Russell street, built by the old Cape Fear and Yadkin Val-ley Railway Company at a cost of about \$90,000.

The organization of the new savings bank here is an object-lesson of the city's increased prosperity and growth of business, and the selection of Mr. Leighton Huske as president is a recognition of the influence of the young man in business and

Fayetteville is great for doing things out of the ordinary, and the new trolley line to be laid by the Fayetteville Street Railway Company will form no exception to the town's habit of taking new departtures. The street railway will run from the steamer wharves at the river to the railroad passenger station on upper Hay street and will carry freight as well as passengers—a very wise provision, but it will be perhaps the only line in the country. perhaps the only line in the country handling goods as well as conveying passengers. It is a remarkable fact that it will run almost over the road-bed of probably the first street railway ever laid in this country built by Sewell asset back country, built by Sewell, away back in the 19th century, coeval with putting steamboats on the Cape Fear river.
