

The Miracle of the Twentieth Century

Study of First Baptist Church

FRED D. HALE, D. D., PASTOR,
606 CHESTNUT STREET.

WILMINGTON, N. C.

Oct. 4, '06.

Dear Dr. McKanna:

From the beginning of your demonstration on five of among the hardest drinkers in the city, to the close of your treatment of the class of 51 others, I have been present nearly every hour of the time, and have been a close observer, giving the matter a thorough study that I might help my fellow men, who have become addicted to the liquor habit, in case your claim could be verified. After due investigation of your work here, and in this State during the past seven months, I desire to voluntarily say that every claim you make has been substantiated, -viz: that you cure alcoholism in three days, and that your patients stay cured, the craving for strong drink not returning. There are 56 happy men and 56 happy homes in this city today that were not here a week ago. Blessings be on your head for the great work in which you are engaged.

Fraternally,

FRED. D. HALE,
President of the Interdenominational Ministers' Association
of Wilmington.
