FORMER COACHMAN JAILED

CTED OF HOLF SHOOTNG og Mr. L. Banks Holt To solence.—Further Details of the Affair.—Wound Serious, But Not Necessarily Fatal.—Mr. Holt Rested Quietly Tuesday Night.—Court is in Session and Authorities Will Get to Work.

Decial to The Observer.

Graham, Nov.

Graham, Nov. 7 .- Mr. L. Banks

it, who was shot in his home last night, pased a quiet night, and unsome complication arise, blds was a miraculous escape,

A negro, Henry Walker, is strongsuspected of having committed the and is in jail. 'H had been the Holts' man, and proviving drunken and insolent, was discharged about two weeks ago. He left cursing. DETAILS OF SHOOTING.

The details of the shooting are as fellows: About \$:30 o'clock last night the telephone, which is in a small back half in Mr. Holt's residence, rang and Mr. Holt answered the call. He said hello two or three times and upon receiving no answer, was in the act of hanging up the receiver when the shot was fired. The supposition is that the shot came from a door that leads out into the back yard. that leads out into the back yard. The bullet entered below the right ear, passed entirely through the Gread, coming out above the left cheek bone and lodged in a door

WOUND NOT FATAL.

Mr. Holt was shocked by the blow but did not realize what had happened until he staggered into the room where his wife was sitting. Mrs. Holt had heard the shot, but no other sound of any description at the time it was fired. Medical aid was summoned immediately and an examination made, resulting in the opinion of the physicians that while the wound was serious it was not necessarily fatal, as the bullet went through his face back of the jaws and luckly missed any vital parts.

Shortly after the shooting a large crowd gathered at the house and a search of the premises was at once begun. The door leading out into the yard from which it is supposed the shot was fired was found open with the key on the outside. Mrs. Holt remembers positively that before supper she locked this door and bolted it from the inside. It is the supposition by the family that help came from the inside from some one who was familiar with the house and with the habits of the family.

The negro, Henry Walker, was ar-rested on circumstantial evidence. He was discharged by Mr. Holt a short time ago and had, it is stated, in the presence of several peopple made threats against Mr. Holt, which owing to Mr. Holt's well-known kindness and populartly among both whites and blacks, is considered sufficient proof on which to hold Wal-

When the negro was arrested early this morning he was found at work at an industrial plant, where is night fireman. This plant is a Burlington, two miles from the scene of the shooting. The belief of some is that Walker was at his post all night, but evidence to this effect has not been brought out, as he would have plenty of time to have gone to Graham and returned without being discovered.

REFUSES TO MAKE STATEMENT. Walker refuses to make any statement in regard to the matter. Court is now in session here and the intention of the authorities is to sift the mystery down at once and, if possible, place the guilty party on trial during the week.

The family of Mr. Holt are very hopeful of his recovery. Two phy-sicians of Sallsbury are at his bedside. The feeling against the negro last night at both Graham and Bur-lington after his arrest ran very high on account of the prominence and great popularity of the wounded man. Mr. Holt is one of the most influential citizens in the State and is most highly esteemed by everyone who knows him.

Putting aside the constitu-tional questions, there is a sociological and political phase of this matter which is of far greater importance than the possibility of a trade boycott by Japan or any other power It is clear enough that the sympathiesof our once-powerful contempor ary, the London Times, incline mare loward Japan than toward the United States, that it considers separate schools for he Japanesein San Francisco a "gross adignity," for which Japan would be justified in boycotting American manufactures and raw ma-terials.
