PEDERAL COMMISSIONERS PRO-TESTED.

Just after the immigrants were sent sut from Charleston a protest was intered by Commissioner Neill, of the deral Department, on the ground but the contract many of the immirants signed with Commissioner Watson to work out their passage ney advanced to them by Mr. Watson was in violation of the Federal immigration laws, it being cond that this money came from the South Carolina cotton mill assoctation, and a lengthy hearing was had in Charleston before the repreentatives of the government, Commissioner General Sargent acting as Full, frank statements were made by Commissoner Watson, Mr. Herbert of his office and Mayor Rhett and others. A stenographic report of this hearing will be sent Washington for an opinion from the Attorney General. On this opinfon will be based the future policy the South Carolina immigration department as to advancing passage It seems that the law atlows a State to advance passage in this way, but not an industrial interest or association. Commissioner Watson says he followed strictly the directions of Mr. Sargent and he does fear the result of the

It was surprising to the Democrats here that such a large majority was secured in the face of such a small registration. There were only about 925 votes out of a registration of some 1,500, a majority of which were Democrats. Yet notwithstanding the majority was more than in 1904. It was the quietest election ever held here, Democrats and Republicans alike seeming to be indifferent to the outcome as especially regarded the majorities. That house would take 12 or 13 gallons of almost any other paint than Devoe, and would have to be painted again in half that time. Ten years is a very long time for a paint to wear; and five isn't short.

Which makes the most freight, a 10 or 20-gallon paint? 50 or 10-year paint? But the 10-gallon paint is the 10-year paint; and the 20-gallon paint is the 5-year paint. Which makes the most freight?

Ask your paint-dealer which he'd rather sell, and which he could sell most of. Ask your painter which he'd rather paint; whether good or bad paint is good for his business; which is good paint, the 10 or 15-gallon paint; which pays most freight, and which pay smost wages. Which will you hay yourself, the 10-gallon 10-year, or 20-gallon 5-year, paint?
