FOR COL. R. A. BROWN

R. A. BROWN, THE BUILDER.

Concord is a live town, backed by a large country trade and numerous manufacturing enterprises, and is constantly growing. Col. Brown is a builder, as everyone knows. He started with a small mud mill and is now called upon to erect numerous municipal and corporation buildings, as you will see by his work all over the country. Those who see his picture or know him, can readily determine that Brown is a builder with determination.

MISSOURI CITY is made up of beautiful building lots—high, dry and healthful. Pure air and good water. **ON THE PROPOSED ELECTRIC CAR LINE.**

Col. Brown has decided to sell several hundred lots, in order to raise money to invest in this enterprise, both in the city and country, and it will help to build up values all around. Therefore it is to the interest of all property holders to attend this sale, buy lots and help Brown in this great building enterprise, as it will benefit everybody. Brown will make you a city right, if you will help him; and all those who invest in these lots, for homes or money-making,

are bound to receive handsome rewards.
