Observer Burcau,
1209 Main Street.
Columbia, S. C., Jan. 18.
There was a lively debate in the Senate to-day over Senator Crouch's anti-gambling bill, which was finally passed with the only change Mr. Crouch sought amended out of the bill. The bill as passed will make the same laws as now, except that the feature giving half the fines to the informant is repealed. This feature, it ormant is repealed. This feature, it was urged, caused negroes to drum uy case merely to get the money out of the fines.

There was also a heated discussion ver Mr. Graydon's bill to forbid judgesc limiting arguments in criminal cases to one hour. The bill was inspired by a recent ruling of the Supreme Court. The bill finally passed. It makes the minimum two hours, as

was the custom up to recently.

The Senate killed Cenator Graydon's bill to fix the place of trial for certain civil actions. The bill was evidently intended to prevent change of venue in such cases at the Morrison The third reading bills passed were

all of a local nature. They included two by Senator Sinkler, one to amend the teachers' retirement fund act and the other to provide a special fund for school purposes in Charleston. Senator Carlisle's bill to allow trustees to pay their bond premiums out

of trust funds was debated at length, W. J. Jonson's bill to require county officers to report to the courts passed the Senate.

Among the new Senate bills was one by Senator Carlisle of import-ance to all cities and towns. It exempts municipal bonds issued for public utilities from theeight per cent. provided by the constitution. Senator Black had a new bill to require all local as well as through freight trains to carry passengers. There was a favorable report on the

bill to allow Clemson College to be sued in the case of damages claimed on the dyke the Clemson authorities There were also favorable reports on Carlisle's bucketshop bill, which is a copy of Senator Sanders' bill of

last year, and on his marriage license The invitation of Clemson for the Senate to visit that institution to-

The House accomplished more business to-day than in all the passed days of the session combined. It showed itself strictly a working body. Speaker Whaley moving the business with splendid dispatch. Ex-xSpeaker Frank B. Gary was at the helm for Mr. Richards endeavored to push

his bill to repeal the lien law to a vote, but there were several other bills seeking to amend the law instead of repeal it, and finally Mr. Richards agreed to make it a special order for next Wednesday at noon.

There was a lively little debate over the matter, showing that the subject deeply affects a variety of interests

throughout the State. McMaster's bill to under the personal supervision of a phyisician under heavy penalty passed by an overwhelming majority.

The debate developed the fact that the evil is growing in an alarming degree, especially among negroes. Mr. McMaster said he had been told by Columbia druggists that there are 1,000 such fiends in Columbia alone. Representative Wyche, who is a physician, said he would rather sell whickey by the drink in defiance of law constantly than sell one dose of cocaine, so terrible was the result of the latter drug in undermining morals.

Representative Dixon's bill to require county officers to make more detailed reports and submit them regularly to the courts passed by a large

Paris Pattern No. 1737.

All Seams Allowed.

Frocks with the body extended to form the skirt are exceedingly well liked for the smaller girls and make up prettily in all sorts of slik and wool dress fabrics and also in plque, linen, madras, duck, gingham, chambray and other tub materials. The one here illustrated is made with a deep round yoke that may be cut from sucking, all-over Jaco or embroidery, ellk or other material in contrast with the rest of the dress, the yoke being shaped to give broad shoulder lines. Plaits laid from mack to hem in the front and back are stitched from the neck to the helt, but only pressed well on the skirt, where they flare prettily. The belt is supported by loop straps at the sides and closed with a button and button-hole in front. A stitched band follows the lower edge of the yoke and adds to the length of the shoulder lines. Marrow wristbands finish the smart long elsewes, which are gathered top and bottom. The pattern is in four sizes—1 to 7 years. For a child of 5 years, the dress needs 5% yards of goods 20 inches wide; or 2 yards 56 inches wide, or 2½ yards 42 inches wide.

Price of pattern, 10 cents.

the attraction at the Academy next Monday. Mr. DeMille comes naturally by his talent as a playwright, as his father, the late Henry C. DeMille, in conjunction with David Belasco, gave to the stage "The Charity Ball," "The Wife," "Men and Women" and other excellent plays.

"Strongheart" introduces Mr. Edeson in a role unlike any in which he has previously appeared and one in which he finds not only opportunities for the display of these talents which have placed him among the foremost stars of the day, but also for the portrayal of a characterization unique in stage annals, that of a college-bred Indian.

"Strongheart" is most ingeniously constructed to demand several kinds of serious attention. The theatregoer of whatever type in whatever mood will find something to hold and entertain him. The atmosphere is that of a modern college, for the scenes are laid at Columbia University. A rousing football game, which aids materially in the development of the drama, sends the first half of the play rapidly and realistically to a tumultous climax. The undercurent of seriousness which underlies the breezy unflagging comedy of the earlier scenes, first comes to the surface in the second act, when Strongheart is wrongfully accused of an act of treachery. The racial prejudice and daughter of two mythical potenthen aroused culminates when it is tates, both of whom are in dire finan discovered that Strongheart is a suit-or for the hand of Dorothy Nelson, the sister of his college chum. LILLIAN RUSSELL IN "THE BUT-

Lillian Russell will appear as a star comedienne at the Academy in the new comedy of modern life by Kal-lett Chambers entitled "The Butter-fly." This is an event of more than usual interest and importance, as it marks the first appearance of the beautiful Lillian Russell in as well as the initial performance here of the new comedy, the author of which is a brother of the distinguished dra-matist, Hadon Chambers.

"The Butterfly" epitomizes the modern, up-to-date spirit of fashion, and the scenes are laid in New York City and Saratoga. Lillian Russell's better known to her intimates as Betsy, who is, as one of the other characters explains. not lost his knack of writing stirring martial tunes as well as sparkling melodies, that Mr. Harry B. Smith's

humor has not lessened since he wrote, "Robin Hood" and that there

is still a virtue in the older ideals of genuine comic opera are three things among others that are said to be demonstrated thoroughly in the presentation of "The Free Lance," iaboration of the great American band-master and "March King," and Mr. Smith, which will be seen for the first time in this city at the Academy next Friday, January 25. It is said no better thing of the kind has Mr. Sousa done, indeed, the freshness of much of the music would seem to prove that he has been wise recently to rest on the laurels of early successes, and Mr Smith's share of the work is described as being commendable, too, in an age when comic opera liberettos are prone to be classed as the eighth deadly sin of the stage. Joseph Cawthorn, a comedian well known for his quaint personality and effective methods is the star of the organization presented by Klaw & Erlanger, and in "The Free Lance" has been furnished with a character which gives him full scope to show he is a comedian of the better class. The company which Klaw & Effanger have gathered together for the presentation contains the best aggregation of singing talent heard outside of grand opera organizations in years. It is particularly noteworthy for its high class chorus work, the big numbers in which three score mixed voices are employed being interpreted in truly masterful manner. Nella Bergen, who has the prima donna role, Jeanette Lowrie, plays the opposite character to Cawthorn, and the other principal factors in the comedy are Albert Hart, the basso, and George Tallman, the tenor. George Schiller, Stanley Murphy, Monte Elmo and an ensemble of seventy-five are in the organization. The scenic investiture and costuming is as sumptuous and in as good taste as Klaw & Erlanger have ever shown in any of their big productions, which is saying a great deal, as this firm has sent to this city some of the most magnificently staged shows ever seen in this country.

The story of "The Free Lance" deals with the marriage of the son cial distress, but who, in their ig norance of each other's condition plan and bring about the marriage of their children to secure the money which each supposes the other to nos him the leader in their sports, in fact, run away before the marriage ceremony, their places being taken by He is the son of a mighty chief, a goat-herd and goose-girl who happen conveniently along.
