FRIDAY, FEBRUARY 1, 1907.

CHARGES AGAINST THE THE OFFICE-HOLDERS.

We presented yesterday two opposing views of the editorial which appeared in this paper last Saturday in reference to the charges which Senator Simmons has presented against a host of Federal office-holders in North Carolina for pernicious activity in politics-one approbatory, from Mr. Thos. S. Rollins, ex-chairman of the Republican State executive committee and in sympathy with the organization element of his party in the State; the other from The Asheville Gazette-News, independent, the editor of which is a Republican and in sympathy with the anti-organization faction. (When was there a time that there were not two factions of the Republican party of this State, each flying at the throat of the other, the point of difference being always as to which should distribute and occupy the Federal offices?) The Industrial News, of Greensboro, Republican, copied The Observer's editorial with approbation; it is a representative of the organization clement and its editor is a victim; and The High Point Enterprise, Democratic, because, like The Observer, it is indifferent to the Republican wrandes and is just, gives it unqualified endorsement This is the case as it stands. The editorial in question succeeded in pleasing one faction of the Republican party and earning the dissent of the other, when it was not de- usual accurate observation in the signed to do either, but only to present a general proposition in behalf of the square deal, to which the human family should agree. Undoubledly The Gazette-News is right in saying that many of the office-holders should be investigated. Very likely some of them should be locked up.
