"THE COLLEGE WIDOW." It seems certain that all the adjectives justified by the English authority have been utilized in application to George Ade's best of American comedies, "The College Widow." Mr. Ade's masterpiece appears not to be merely a pleasant pastime once seen and then dismissed from the mind, but it is evidently possessed of such permanent qualities as almost, if not quite, qualify it for a place among the classics. It is infrequently true that a great popular success meets with a practically unanimous word of approval from professional critics, but public and press, in the matter of Mr. Ade's play seem in perfect accord. "The College comes to the Academy on Friday, March 1st, with a strong cast, a new production, and the perfection of detail that characterizes all the efforts of Henry W. Savage.

Suburban Town of Ruth Secures Order From Court and Stops Voting at Rutherfordton on Matter of Extending the City Limits. Special to The Observer.

Rutherfordton, Feb. 21.—The people of Ruth, the suburban town of Rutherfordton, through their attorney, Mr. Matt McBrayer, on Saturday night secured a temporary injunction against the town of Rutherfordton restraining her citizens from voting Monday on the question of from voting Monday on the question of of Rutherfordton restraining her citizens from voting Monday on the question of extension or no extension of the corporate limits. So the election is off for at least a month as the matter is now in the courts. The temporary injunction was secured from Judge Moore on the Southern train late Saturday night, while en route from Salisbury to Marion, and is made returnable before Judge Guiou at the latter place Friday, at which time the injunction will be set aside or made permanent.

the injunction will be set aside or made permanent.

The voting began early Monday morning and up to the time of serying the restraining order by the sheriff at 9:30 o'clock, 44 votes had been cast. Of that number 43 were cast for extension and one against, which goes to show that our people are almost unanimous in favor of extending the corporate limits of the town. The legal battle Friday will be fought over the legality of the old 1885 charter of Rutherfordton, which gives her the right of extension without any limit to territory. This is claimed by some to be defective. Ruth falling in her efforts to corporate herself, now claims the right to hold under the Hampton-wille charter of 1893, which will be attacked by Rutherfordton, as Hampton-wille or Ruth never used this charter, and the question now arises: Does a charter die through non-use, and did this later charter of Hampton-wille effect or repeal any part of the charter of Rutherfordton? Both sides will have witnesses before Judge Gulon and the matter will be thoroughly aired.

"Why all this cry against the ne-gro," said he. "If the negro were to go what would become of rag-time, coon songs and, worst of all, the writers of negro dialect." Then Historical Articles From Guilford Bat-tle Ground Museum Tendered to Guilford Chapter for This Purpose. Mr. McNeill proceeded to present to ais audience the negro in lighter vein, as a source of endless joy, reciting first a series of poems illus-trative of the negro's different char-acteristics, his life, philosophy and superstitution. Of these poems "Mr. Nigger," "Dew" and "Possum Time Again" were received with especial

either.

All you have to do is to stand up like a man and ask the dealer for cigars identified by the "Triangle A" on the box.

Nothing else. Nothing easier. Nothing surer.

When you say "Give me a Tri-angle A' cigar," you are absolutely as certain of getting quality, and the same quality every time, no matter which particular brand you select, as if you had your cigars

made up to order. We have succeeded in building up a fifteen per cent. share of the entire cigar business of this country. In the face of the keenest competition, take notice. You know well enough that there's only

one way we could have done it : Simply by making better cigars of every grade than any other man-ufacturer has produced and telling the truth about them.

And by making the strongest definite claims that any cigar manufacturer ever dared to make, and

living up to them. The one reason why we started in marking our boxes with the "Triangle A" was to enable you to shut down sharp on the common hit-ormiss way of buying cigars on somebody's say-so, and make your selec-

tion with your eyes open.
It would be worth your while to take all sorts of trouble in order to obtain "Triangle A" brands-but you don't have to bother-you can get them anywhere.

It's up to you to ask for them. Practically every dealer in the United States carries them.

Do your part! Give yourself a square deal!

This "Triangle A" merit mark identifies the product of the most modern improved methods and scientific processes of cigar production, and represents a standard of quality far superior to that which the same price could heretofore purchase.

If you have been buying your cigars by guess-work and want to put our claims to a most practical test, just take a new start. Begin by smoking one of the best-known of all the brands that are sold under the guarantee of the "Triangle A"—

# The New CREMO

Compare it fairly with any cigar sold at the same price that carries no "Triangle A" guarantee:—you won't fail to see why we are so confident of your co-operation as soon as you realize just what the "Triangle A" stands for.

Every box is now extra-wrapped in glassine paper, sealed at each end with the "Triangle A" in red. The cigars are kept clean, fresh and in perfect smoking condition until the box is opened.
