HEALTH OFFICERS SEEK PHYSICIANS HELP IN FIGHT AGAINST GONSUMPTION.

The Kansas and Minnesota State Boards of Health have made a new move against tuberculosis. Letters have been mailed to both physicians and patients, requesting that the former co-operate with the board in the fight against consumption by supplying full information relative to each case that comes under their observa-tion, and advising the latter as to the best known methods of treatment. Among the instructions offered to tuberculosis patients are the following:

Men with consumption should not wear beard or mustache Sleep alone. Keep the windows open day and night; fresh air is essential. Dress warmly, and don't be afraid of the cold. Eat plenty of nourishing food. Don't spit on the floors or in public Stay out of doors all you can; remember that sunshine kills the germs of consumption.

These are wise instructions, and should be observed by every one afflicted, as the most important duty is to get well. Colds and coughs should not be neglected, as colds inflame the lungs, and the cough is extremely wearing on the system.

An eminent authority on lung trouble says that the following simple formula will break up a cold in twenty-four hours, and cure any cough that is curable: Virgin Oil of Pine (Pure), onehalf ounce; glycerine, two ounces; good whiskey, a half-pint. Shake well and use in teaspoonful doses every four hours. Great cars should be exercised in securing pure ingredients, and, to avoid A CARD.
