New York, March 15.—Liverpool show-ed more strength than expected by the trade in face of the failure of the Ameri-can markts to respond to the good tone of yesterday. In fact our markets are under the influence of the enormous or yesterday. In fact our markets are under the influence of the enormous movement, which continue upon a record hasis, when a sharp falling off had been expected. It is now thought that the movement will decrease from the bum-per crop during the next month, but there are no indications that it will fall below last year for a long time to come, and on that basis the crop will be close to 14,000,000 bales. At the same time there are strong operators enlisted on the long side, with their ideas based on the ex-tension of the cotton goods market who are at present dominant in the local sit-uation and those who do not agree with their views do not oppose them in any way. With outside speculation dommant, awaiting new factors, the fluctuations are due to orders from Liverpool. HUBBARD BROS. & CO

There were present: Messrs. W. H. Humphry, K. M. Biggs, Geo. B. McLeod, A. E. White, J. G. McCor-mick, R. D. Caldwell and Stephen Me-Intyre, constituting the full board. Mr. R. C.
