The Business Men's Municipal League, which has opened headquarters at 217-South Tryon and has hung its banner to the winds and across the street, in keeping things going in good shape. All sorts of people are dropping in to find out things and get questions answered.

The Olympians and Spartans will play basketball to-night at 8:30 at the Young Men's Athletic Association gymnasium. The two teams stand first and second on the list, so a close game is anticipated. The Olympians won both the preceding games by large scores. The admission will be 10 cents.

ANOTHER TICKET CHOSEN.

A Second Mass Meeting of Dilworth Citizens Held Last Night—The Ticket—Fire Protection Wanted at Once.

The mass meeting, No. 2, of Dilworth citizens was held in Sims hall last night. There were about 80 voters present. Mr. W. G. Rogers was chosen chairman and M. D. S. Monteith, secretary. After discussion, the following names were selected as candidates: For aldermen, Messrs. H. C. Long and Frank D. Lethco; for school commissioners, Messrs. C. F. Alexander and J. P. Kirkpatrick. Messrs. W. F. Dowd and R. J. Cochran were appointed members of the executive committee.

As the name suggests, the talking machine concert given last night by the Charlotte Music Company was the most popular one yet given, the seating capacity of the house being taxed to the limit there being standing room only shortly after the concert began. Amongst the most popular numbers on the programme were the following: "Fancy Little Nancy," "If Anybody Wants to Meet a Jonah," "Shake Hands With Me," "I Love the Last One Out of All Weather," "Good Night No. 1, Guard Guard Parade," and "He's a Cousin of Mine."

Southern's Divisions May Be Consolidated.

It was reported in the city yesterday that the Charlotte and Greenville divisions of the Southern Railway are to be consolidated and the office of the division superintendent located at Greenville, S. C. Though no confirmation could be secured here, the impression seems to exist that some change will be made soon. It is not certain that the reported consolidation of the two districts would necessitate the moving of the superintendent's office from Charlotte.

Amateurs vs. Professionals.

The Charlotte business men have organized to take a hand in municipal politics. It is said that "they mean business." The other crowd is also in politics for business.

5000 LIVES SAVED YEARLY BY MODERN METHODS IN TREATING CONSUMPTION

In New York since 1881 there has been a reduction in the death rate from tuberculosis of 40 per cent; that means an annual saving of some 5,000 lives. Before a German scientist discovered the germ of this disease, it was considered the visitation of an avenging Providence. Our fathers gave it up as hopeless. Modern methods of treatment, however, have done much toward eradicating the terrible disease. A noted specialist, whose camp for consumptives in the Pine Woods of Maine has attracted great attention, because of the remarkable cures he has effected there, and whose methods have been endorsed by the highest authorities, says his treatment was very simple, consisting of open air exercise, deep breathing and nourishing food. Every four hours the patient was given one teaspoonful of a mixture of the Pure Virgin Oil from the White Pine Trees, combined with Whiskey and Glycerine, in the following proportions: One-half ounce Virgin Oil of Pine (Pure), two ounces of Glycerine and eight ounces of good Whiskey. Shake well and take in teaspoonful doses every four hours. This treatment strengthened the lungs and healed the bronchial tubes. He claims this formula will break up a cold in twenty-four hours, and cure any cough that is curable. The ingredients can be secured from any good prescription druggist at small cost, and can be easily mixed in your own home. Inquiry at the prescription department of one of our leading druggists elicited the information that Virgin Oil of Pine (Pure) is put up only in half-ounce vials for dispensing. Each vial is securely sealed in a round wooden case, with engraved wrapper, with the name—Virgin Oil of Pine (Pure), guaranteed under the Food and Drug Act of June 30th, 1906, serial number 451, put up only by Leach Chemical Co., Cincinnati, Ohio—plainly printed thereon. There are many rank imitations of Virgin Oil of Pine (Pure), which are put out under similar name and style of package. Never accept these as a substitute for the pure Virgin Oil of Pine, as they will invariably produce nausea and never effect the desired result.

That Soap Factory Case.

United States District Attorney A. E. Holton will arrive here to-day to look after the bank case and the soap still. Mr. Alfred Anderson, the man who was preparing to make a run of lye soap at his home at 300 East Eleventh street, when set upon by Judge Albright, Vance Scoggins and Patrolman House, may have a hearing. This day should bring forth something worth the while for newspaper reporters.

Not a Matter For Experiment.

Young's Companion. A young man who had inherited a large fortune from a rich, but very economical relative decided to live on a scale commensurate with his greatly increased income, and was making arrangements to build a fine mansion, buy an automobile and invest in other expensive luxuries, when an elderly friend who had always been one of his advisers undertook to remonstrate with him. "What's this I hear about your squandering the money your uncle left you Harry?" said the elderly friend. "I am not going to squander it," he answered, "but I'm going to get some good out of it."

HOME PRESCRIPTION

Speediest Relief Known to Science for Coughs, Colds and Consumption.

This home prescription has been familiar to druggists for years. Its wonderful effectiveness on coughs, colds and all affections of the bronchial tubes and pulmonary organs spread its fame from city to city with rapidly increasing popularity. Only shortly after the origin of this prescription developed the fact that it emanated from a prominent Philadelphia physician, who gained fame amongst his profession for the development of a truly soluble preparation from the active principle of the pine tree, which although known to contain wonderful curative powers on the mucous membrane, yet was not generally used by doctors on account of its insolubility. This new form of pine is known to doctors and druggists as the Concentrated Oil of Pine and it forms the chief ingredient in the famous "Home Prescription," which is here given to the public and is as follows: Concentrated oil of pine, half-ounce; pure whiskey (spirits frumment), eight ounces; glycerine, two ounces. Mix and shake thoroughly and take a tablespoonful every four hours. This will frequently cure a cold inside of twenty-four hours.

These ingredients can be secured at any good drug store, and can be easily mixed at home in a ten-ounce bottle. The concentrated oil of pine comes put up for dispensing in half-ounce vials, securely sealed in a screw-top package, which retains all the original ozone. It should be borne in mind, however, that there are patent medicines put up by so-called chemical companies to imitate the wonderful pine oil. These can be avoided by making sure to get the "Concentrated" oil of pine. It is also said to be very effective in curing lumbago and uric acid rheumatism. For this purpose it is taken raw, a few drops on sugar night and morning.

Hats for Men

Knapp-Felt Hats not only wear long, they wear well. The closer and firmer texture of Knapp-Felt will resist hard usage longer than any other hat fabric and will retain through all the stages of wear the noticeable elegance of style which characterizes Knapp-Felt Hats when they are new. The shapes are exclusive and cannot be found in any other make and are of sufficient variety to afford an opportunity to the man who desires to wear the best to exercise his own taste and judgment in the selection of a style which will properly reflect his own individuality.
