TO FIGHT LEAGUE TICKET.

Messrs. W. G. Rogers and Z. V. Kendrick Agree to Run for Aldermen From Dilworth Against Messrs. Kirkpatrick and Garibaldi.

Announcement was yesterday made that Messrs. Willard G. Rogers, of the architectural firm of Hook & Rogers, Zebulon V. Kendrick, vice president of the Charlotte Pipe and Foundry Company, will run for aldermen from Ward 3 in opposition to the ticket recently nominated by the Business Men's Municipal League. This decision was reached by each of these gentlemen, it was stated, after they had been visited by a delegation from the Dilworth ward, urging them to make the race. This announcement revived the spirits of the opponents of the business men's organization, who had been somewhat depressed by the declination of Messrs. H. C. Long and F. D. Lethco, who were suggested at a meeting held in Dilworth last week. This sets the political pot in Dilworth boiling with renewed intensity. The main fight in this territory will be between the gentlemen named and Messrs. Kirkpatrick and Garibaldi, who have been named as the candidates of the Business Men's Municipal League.

REV. J. R. MOOSE LECTURES.

Returned Missionary from Korea Delivers Interesting Talk at Tryon Street Methodist Church—The Korean Superior to the Japanese.

In Tryon Street Methodist church last night, Rev. J. R. Moose, a returned missionary, delivered an interesting missionary address on Korea.

Mr. Moose has been in Korea for 7 years and has been very successful in his work. He was formerly a member of the Western North Carolina Conference.

Rev. Mr. Moose said in part: "The only difference between the Koreans and ourselves is redemption. I know a great many do not agree with me in this statement, but nevertheless it is true. I have learned a good many things in the 42 years that have passed over my head, and one of these things is that it is not the color of the skin that makes the manhood in any man. I know many do not agree with me in this statement either, for there are many who believe the Anglo-Saxon race is the only race of consequence in the world, but they are mistaken.

Long before our grandfathers were civilized, when they were still eating acorns like hogs, the Koreans were an educated, cultured people, and understood many modern arts of industry.

"But for the obedience of the first great missionary to the vision at Troas, we would still be in heathen darkness and the Koreans would be a Christian nation.

Mr. Moose then spoke in a practical manner of the country, the climate, the people, their dress, customs and religion.

The Koreans, he says, are a people of unusually bright intellect, and that fact makes them the most worthy something. Their country is old, having written history dating back as far as 1122 B. C. The country is a peninsula embracing a territory about equal to North Carolina and Virginia, and in the same latitude, and has a population of 14,000,000 people.

Mr. Moose considers the Korean oppression and capture of Korea one of the greatest outrages of the last 200 years, and he says the Koreans are a people far superior to the Japanese.

He says that honesty is unknown among the Koreans until they become Christians. And they never wasted anything, even eating their horse, cows and dogs when they become diseased or die of themselves.

Cotton goods is used for clothing almost exclusively in Korea, and most of the cotton used is from the Southern States of America.

Of the religious life of the Koreans he spoke most interestingly and showed many curios that interested his hearers.

The first missionaries went to Korea 22 years ago and during this time more than 100,000 of the people have become Christians.

The first missionaries of the M. E. Church, South, to go to Korea went 10 years ago and since then 1,400 members have been added to this church. There have never been more than 9 missionaries there at one time.
