MIYAN WRITES R. M. WHITNEY

Public Ownershop is the Ulti-Solution of the Railroad Ques-Prefers System in Which Fed-lovernment Will be Confined cessary Trunk Lines, and ship of Rest Left to States.

Boston, March 29 .- H. M. Whitney, a prominent Massachusetts Democrat, and former candidate for Lieutenant Governor, to-night made public a letter he had just received from William J. Bryan, dealing with the railroad question. The letter was in response to one from Mr. Whitney, in which he asked: "Whether in your judgment there is any danger of reg-ulation being carried to a point pre-venting a reasonable return on money invested in the railroads of the country, and whether in case of adoption of government ownership by the nation or by the several States the stockholders could expect to receive a price equal to the value of thephys-

ical railroad properties?"
Mr. Bryan writes in part as follows:
"I am in favor of both national and State regulations, and I also believe that public ownership is the ul-timate solution of the railroad question. In my discussions on this subject I have pointed out that because of the danger of centralization in ownership by the Federal government of all the lines, I prefer a system in which the Federal government will be confined to the necessary trunk lines, and the ownership of the rest of the lines be left to the States. This, nowever, is not an immediate question; at least I am not sure that the people are ready to consider the question of public ownership, and until they are ready to consider that question the interest is centered in regulation. As an advocate of reg-ulation of the strictest sort, I can say to you that there is no danger whatever that this regulation will be carried to the point of preventing a reasonable return on money invested in the railroads of the country. And I also assure you that whenever public ownership is adopted by the States or by the nation, the stockholders may expect to receive a price at least equal to the value of the physical propertles of the road; but no such assurance ought to be necessary, because the public has shown no disposition to which would deny a reasonable re-

"I have contended that the present value of the railroad should be ascertained by the inter-State commerce commission and the commissions of the various States in order that investors may know when they are buying stock of intrinsic value and when they are being cheated, "I think I can speak for those who

believe in regulation and I know that there is not and never has been danger of injustice to the owners of the Former Manager of Hadley Cement railroads, and if I can speak for those who believe that the ultimate solution of the railroad is to be found in public ownership, I can say that there is no disposition to confiscate rail-road property even if the courts

ASSEVILLE MUNICIPAL FIGHT.

opened next week. The opening gun will be fired by the Republicans and the short campaign of one month promises to be interesting and perhaps lively and exciting. C. B. Moore, chairman of the clity executive committee, to-day issued a call for a convention of the Republicans of Asheville to be held at the county court house next Tuesday evening, April 2, at 8 o'clock for the purpose of perfecting a city organization and taking steps to nominate a Republican ticket to oppose the nominees of the Democrats for municipal offices. The Republicans have decided to make a straight fight in Asheville this spring. There will be no "independent" or "citizens" movement, which heretofore have been tostered and launched by the Republicans and disgrunted Democrats. These movements in the past with a few exceptions have met with crushing defeat and the Republicans now say that if they are to meet defeat they feat and the Republicans have borne the stigma. The Republicans now say that if they are to meet defeat they would rather go down in a dignified manner with no "independent" or "citimens" movement attachments. They are going to nominate only straight Republicans. They are not very hopeful of victory. As a matter of fact they expect defeat, but in perfecting a city Republican organization and conducting an active municipal campaign they feel that they will be laying the foundation for a vigorous county and congressional fight riegrous county and congressional fight rext year with good show of success. For several years the Republicans have tacked organization in Asheville and Buncombe county and this fact they are ready to admit. They contend now, however, that they are going to wake up and get busy; organize; sound the bugle call for a meeting of the faithful and fight straight from the shoulder. If the Republicans nominate a ticket of good sound business men and wage an active campaign they will probably create some interest and excitement and withal tend to reduce the Democratic majority at the polls.

It is rumored that when the office is transferred to Statesville a stamp deputy and a general store-keeper and gauger will be stationed here. This rumor, however, for the present lacks confirmation. The date for the removal of the office has not been selected. Collector Brown is at work on the minor details incident to the office's transfer and with the working office's transfer and with the working out of these arrangements and the wind-ing up of monthly and quarterly reports the formal preparations for going to Statesville will begin.

FRENCH TROOPS OCCUPY OUDJA.

Moorish Governor Meets Commander and Assures Him of the Friendliness of the Population. Oudia, Morocco, March 29 .- A col-

umn of French troops occupied this city at 10 a. m. to-day. The Moorish Governor met the French commander and gave him assurance of the friendliness of the population. No further incidents occurred.

Two companies of French Zouaves and a detachment of cavalry are quartered in Oudja. Three battalions of infantry and a battery of artillery are encamped outside the city.

Although it is impossible to say how long the occupation of Oudja will be continued it is not probable that the entire force of \$,000 men will remain for long on Moroccan territory. As soo as the power of France has been accomplished, the greater portion of the column of occupation will be withdrawn gradually, leaving at Oudja necessary for the preservation of or-
