THE EVER GROWING ASH PILE

FOR WHICH YOU PAY PER TON - SAME AS COAL FREIGHT - SAME AS COAL LABOR - SAME AS COAL TO BE THROWN AWAY

"ADMIRALTY" COAL

Comes from the New River-Pocahontas Smokeless Coal beds of West Virginia. Analyses from West Virginia Geological Survey show that it contains 96 per cent. combustible matter. It is, therefore, low in ash. Received the award at World's Fair, Chicago, for uniformity and purity. Highest endorsement in United States report on fuel tests at St. Louis. Pronounced the "best tested."

Used on United States transports carrying troops from Newport News to Cuba. German, Italian and Turkish men-of-war coaled with "ADMIRALTY" Coal at Newport News.

Used by many of the leading Cotton Mills, Ice Plants, Brick Plants and other manufacturing plants in the South and in New England.

Direct shipments from our own mines give us unsurpassed facilities. Careful preparation at the mines insures uniform quality. Costs no more than inferior coal and produces the most power with least consumption—hence, the most economical fuel on the market. Once used, always used.

Investigate "ADMIRALTY" Coal before you buy. Full information by mail or personally through our representative. IF YOU ARE IN THE MARKET, WRITE FOR OUR CONTRACT PROPOSITION.
