TITLE CHANGE IN STOCKS.

Moved Downward and Then Recovered But Rally Was Not Held. Closing Tone Was Irregular. Transit a Speculative Favorite.

April 3.—The movement of the market to-day was regarded as a reflection of the shifting sentiment of professional operators. It was a day of changes in conditions. The market tends to be more and more into the hands of professional operators with the complete transactions by those prominent and substantial and sustained. The development of most of the market was the relaxing tendency, which, however, was little reflected in the stock dealings. Receding rates were the rule at all the principal centers of the market. The market has gained on sub-Treasury since the last bank statement. They received to-day consignments upwards of \$1,000,000 of the gold standard last week. The prior day indicates also a movement of the market in favor of New York. While the market was little affected by the news of money, the bond market to show a marked improvement. It was increased demand, which was largely regarded with great interest to its tendency to correct over-logged condition which has been in the bond market for months, take up the congestion of many unmarketable issues, and the business and bankers. The New York market already has paid over to the extent of \$1,000,000 of consignment, making it evident that the Treasury Department is not limiting the amount of this kind of the \$1,000,000 consignment receipts first deposited under the authority of law. The Treasury circular on the refunding of \$50,000,000 of the bonds of 1907 at maturity on July 1, 1910, is regarded by bankers as indicating additional assurance of support for the money market. Prices moved downward and then recovered. Rapid transit a speculative favorite in the late rise, which was largely to rebuying of stocks in the day. The rally was not held in the closing tone was irregular. Total sales, par value, \$1,250,000. The new and old issues declined 1/4 and the new and old issues declined 1/4 per cent. on call. Sales to-day \$50,100 shares, including 137,500; Smelting 34,900; Sugar 1,000; Anaconda 1,000; C. & O. 1,500; L. & N. 700; Penna. 1,000; U. P. 124,000; U. S. 5,000; Va.-Carolina Chemical 100.

New Orleans Cotton.

Orleans, April 3.—Cotton, spots steady, and unchanged, middling demand, showed some improvement. Sales were 100 on the spot and 350 to arrive. sympathy with Liverpool, futures quiet at a decline of 1 point on five months. After selling at 10.13 during the early part of the day, when the bear element was in the market, the market was gradually improved in response to moderate amount of fresh selling on rather high estimates for demand at New Orleans, Houston and London. When the market reached level of 10.13 for July, heavy selling caused a drop of several points. It, however, rallied to the support of the market and brought it up to 10.13. It again fell out 2 points on taking, but closed steady from points above the close yesterday. Sales closed steady:

Good middling	10.13
Middling	10.13
Low middling	10.13
Very low middling	10.13
Low	10.13
Very low	10.13

Liverpool Cotton.

Liverpool, April 3.—Closing cotton spot prices unchanged; American middling 6.75; good middling 6.82; low middling 6.85; good ordinary 6.88. The sales of the day were 1,000 bales of which 500 were for export and included in American. Receipts 60,000 bales, including 10,000 American. The market was quiet and steady, and prices of American middling 6.75; good middling 6.82; low middling 6.85; good ordinary 6.88. The sales of the day were 1,000 bales of which 500 were for export and included in American. Receipts 60,000 bales, including 10,000 American.

"ADMIRALTY" COAL

Comes from the New River-Pocahontas Smokeless Coal beds of West Virginia. Analyses from West Virginia Geological Survey show that it contains 96 per cent. combustible matter. It is, therefore, low in ash.

Received the award at World's Fair, Chicago, for uniformity and purity. Highest endorsement in United States report on fuel tests at St. Louis. Pronounced the "best tested."

Used on United States transports carrying troops from Newport News to Cuba. German, Italian and Turkish men-of-war coaled with "ADMIRALTY" Coal at Newport News.

Used by many of the leading Cotton Mills, Ice Plants, Brick Plants and other manufacturing in the South and in New England.

Direct shipments from our own mines give us unsurpassed facilities. Careful preparation at the mines insures uniform quality. Costs no more than inferior coal, and produces the most power with least consumption--hence, the most economical fuel on the market. Once used, always used.

Investigate "ADMIRALTY" Coal before you buy. Full information by mail or personally through our representative. IF YOU ARE IN THE MARKET, WRITE FOR OUR CONTRACT PROPOSITION.
