Due West, S. C., April 27 .- One of the swellest and most enjoyable events in Due West this spring was the reception given by Dr. and Mrs. F. Y. Erskine's ball team is now pushing to the front for the State championship. Out of five games played only one has been lost. The trip to Clemson, Spartanburg and Greenville had a fitting climax in Furman's complete overthrow by a score of 8 to 3. President Boyce had wired Manager Pressly that if they won the Furman game the young ladies would give a soiree that night. A soiree was given, and no little feature of it was the handsome toast by the young ladies to the ball team, every man on the team the handsome toast by the young ladies to the ball team, every man on the team having a part in the praise which some gifted ones had thrown into pretty verse. "Buck" Pressly responded for the team and in characteristic baseball eloquence said in conclusion: "We wanted to win; we won, and now we are g'ad of it." Erskine plays Furman here saturday.

The annual spring concert was held in the D. W. F. C. chapel on Monday evening. The skill with which the young ladies executed their parts reflect much credit upon the music teachers of this institution. There were songs and sev-eral difficult kinds of instrumental per-formances. saturday.

Trinity College, April 27.—Last Tuesday evening the student body gave the baseball team a reception in the college dining hall, this being an appreciation on its part for the splendid way in which the boys conducted themselves on their Nonthern trip. Not only did they have many words of praise bestowed on them wherever they went for their splendid ability on the diamond, but because of their gentlemanty conduct they received much commendation from individuals and newspapers. They never had a finer trip and it is very likely that hereafter the team will continue to go North on its tour instead of South.

The first of a series of four lectures on scientific subjects was delivered in Crowell Science Hall Thursday evening by Prof. C. W. Edwards, of the department of physics. He spoke on the theory of music and was heard by a goodly number of students. The remaining three lectures will be given each Thursday evening until the leach Thursday evening of the masculine.

The score stood teams of the college. The score stood 2 to 3 in favor of the first, when a few minutes before 5 o'clock the game had to stop as the young ladies from Char-lotte had to hurry away to a train that was dead on time. An Earnest Talk on the Life of Faith By the Teacher of the Albemarle Normal and Collegiate Institute.

The need of the new building for the Young Woman's Christian Association was never more plainly evidenced than at the vesper service on yesterday afternoon. The parlors were crowded with ladies who were anxious to hear the message of Miss Frances E. Ufford, of Albemarle, and the rooms being so small many were unable to get where the speaker could be heard. Miss Ufford spoke on the life of faith, and illustrated her words with instances from her own life in the noble educational work in which she as been engaged for the past thirteen years. She has carried on this work without any appropriation from any church or organization, and voluntary contributions from persons who have learned of the work have been the financial support of the school. The students consist of poor girls unable to attend school elsewhere, and if room could be furnished the number now the school-thirty-could be doubled several times. A new building is now in course of erection which will accommodate a much larger number of students. Mecklenburg Presbytery recently appropriated \$3,500 to this school Miss Ufford is an interesting speak-
