New York, June 5.—A warm clear weather map brought a lower opening and a decline which finally carried the market down some 15 peints. Then telegrams were received from northern Texas stating that a rain storm had appeared in that section, which led to a sharp advance, all of the loss being recovered and more.

This shows how closely the market will follow any reports of rainy weather which may be received. No one wishes to be short of the market, all looking for further storms to continue the damage to the growing plant. The market is more a weather one than ever and that will be the only and the controlling factor. The spot market was steady at unchanged prices.

The next production was an essay by Miss H. Ruth Stevick, representing the Psybhelian Literary Society. The subject, "Not Genius but Tact," was very deftly dealt with.

Miss Stevick's essay was followed by an oration, "Glimpses of the Past," by R. Junius Kernodle. The next was a kindred subject "Let Us Go Back" by Mr. Rollings from Virginia, representing the Clio Society,
Miss Spencer, another Psyphelian

representative, wrote on "The Invasion of a Fair Empire." The last oration on the programme was "America as a World Power," by E. M. Carter, of Alabama, representative of the Philologian Society. Mr. Carter showed that America was to be the guiding power and an international force in solving present-day problems.

Upon the whole the programme was one of the best in the history of the institution.

A Scientific Opinion,

Chicago Record-Herald.

There is a certain cooking school in the loop district where every day in the week large classes of girls convene for instruction in the gentle art of raising the dough.

Last wek a class of thirty rather impractical girls, as most of them are, was studying the doughnut scien-

One of the dullest pupils in the class, who never could learn to boil water without burning it, was rather nattentive while the teacher was lecturing on "sinkers." Thinking to catch her and adminis-

ter a rebuke on her inattention, the eacher suddenly broke off and said: "Miss Smith, what is the healthiest part of the doughnut?"

Miss Smith straightened up, flushed up, stood up and replied: "Whywhy, the hole, I believe."
