New York, June 6.—Large continual buying orders in Liverpool this morning on reported rains yesterday in northern Texas brought about an excited market there at an advance to the highest point touched this season.

So sharp was the advance that it was accepted as offering an opportunity to the bulls to liquidate their holdings, and this they have continued to do during the day. The opening prices were the best, though a rally in the afternoon carried the market nearly to the highest level. This rally was based on bad crop accounts from the Mississippi valley; but again on selling from other sections of the South, either of long cotton or against expected production during the year, the market broke helow the close of yesterday. Probably the failure of the official rainfall to corroborate the private dispatches of yesterday furnished the principal reason for the liquidation.

Work of a Pipe Line Walker. Philadelphia Record.

Jack Hovey has walked over the Tidewater pipe line from Rixford, McKean county, to Williamsport continuously during the last twenty-six years.

He makes from eight to twenty-one miles a day, carrying a kit of tools weighing about sixty pounds, among which is a telegraph instrument, which in case of breaks or other accidents, he attaches to the company's wire which follows the line, and informs headquarters at Williamsport: The distance is 145 miles as the line clerk showed him the record in question. He looked at it for a few marriage license issued to Frank issues some five years ago. The clerk showed him the record in question. The distance is 145 miles as the line runs, up and down hill, across valleys and through woodlands and forests, forty miles of it being through the dense Potter county woods with the record in question. He looked at it for a few moments, then said: "How much him cost? I want to buy him back." dense Potter county woods, with scarcely a habitation along the route.

No one will question the superior appearance of well-painted property. The question that the property-owner asks is: "Is the appearance worth

the cost?" Poor paint is for temporary appear-

ance only, Lewis .

Indians Seeking Divorce.

Klamath Falls correspondence. Sacramento Bee.

The Klamath Indians are adopting the current society fad of getting divorces. Tim Brown, Indian, has filed suit in the Circuit Court to secure a divorce from his spuaw. This is the first case on record in the county clerk's office, where an Indian has begun divorce proceedings.

That others intend following in Brown's footsteps is shown by the following incident that occurred a few days ago. A full blooded Indian walked into the County Clerk's office
