King Quality SHOES FOR MEN Fit the Foot. It isn't easy to make shoes fit the foot. If it were, more shoemakers would do it. Ordinarily the foot, more plastic than new leather, is called upon to fit the shoe. That's what "breaking in" a new shoe means. Really it is the foot that is broken in. Hence all the ills the foot is heir to. It means much to the wearer to have the shoe fit the foot. Here's a shoe that does. That's one reason why it's called King Quality. The Shoe of Shoes. If dealer does not carry "King Quality" send for Priced Catalogue. ARNOLD SHOE CO., No. Abington, Mass.

WOLFE'S MACHINE A SUCCESS. Meeklenburg Man Invents a Steam Shovel That is Proving a Great Labor Saver—Does Work of 30 Men—The machine Will Be on The Market Next Year. Mr. C. Harlan Wolfe is the inventor of a steam shovel that seems destined to prove a great success. It is intended to come between the old wheelbarrow shovel, pulled by mules, and the railroad steam shovel, which has to be operated on a track, and is not practicable for ordinary purposes. The machinery operating the shovel is very simple, and is mounted on a common traction engine. Unlike other shovels this one goes before and is pushed by the engine. When the shovel is full it is hoisted high enough so that a wagon can drive under it and then is dumped into the wagon by the operator. One man is all that is needed to operate it. The shovel is made to hold from one to one and a fourth cubic yards of earth, and in ordinary work will average one cubic yard at a time. Under ideal conditions the machine can be made to load 600 wagons in a day of 10 hours, this being one each minute. In ordinary work it will not do this, but Mr. Wolfe thinks that it will average 300 or 400 wagon loads a day. Thursday Mr. Wolfe was at work with his new machine in the auditorium lot on the corner of Fifth and College streets. There were 18 wagons at work hauling away the dirt and then very often the machine had to wait for them. It has been shown by actual test, that this shovel will do the work of 30 men. Mr. Wolfe has been working on this machine and gradually perfecting it for several years. He now he thinks it is about perfect. He has subjected every part to a rigid practical test and whenever he found a weak place he remedied it, and then taken out a patent on each important part as it is perfected so that now the whole machine is patented or a patent has been applied for. The idea of inventing a steam shovel first came into Mr. Wolfe's mind while he was at work for the county. He saw the great need for it. He went to work on the idea that came to him with the result described above. The machine is wonderfully simple, and its very simplicity is a point in its favor. It is manufactured by the Moffitt Manufacturing Company of this place, and they expect to have it on the market within the next year. DR. MCROREY IS PRESIDENT. He Succeeds Dr. D. J. Sanders as the Head of Middle University. Since the death of the lamented Dr. D. J. Sanders, March 6th, 1907, Middle University has been without a president, Dr. G. E. Davis, the dean of the University, performing this function. The question, "Who is to be the next president," was answered yesterday by Dr. Davis, who, seventeen years ago, had the honor to introduce to an audience under circumstances somewhat similar to the first negro president of the University. He announced as the second negro president the Rev. H. L. McCrorey, D. D. Amid much applause the new president was escorted to the platform by two of his classmates, Prof. Douglass and Rev. D. S. Colyer. The new president spoke feelingly of the new responsibilities that had come upon him in his new station. He is an alumnus of Middle University, having been graduated from all of its schools, and having taken since that time summer courses at the University of Chicago in Hebrew and Arabic. He has been a professor in the University for several years, holding at the time of his election the chair of Hebrew and performing the duties of dean of the theological department of the school. He will have, and is justly entitled thereto, the cordial support of his associates in the faculty.

The average man cannot afford to employ a physician for every slight ailment or injury that may occur in his family, nor can he afford to neglect them, as so slight an injury as the scratch of a pin has been known to cause the loss of a limb. Hence every man must from necessity be his own doctor for this class of ailments. John Smith's Year. Honor, Glory and Jokes to the Bearers of the Name, Especially at Jamestown. New York Sun. "I read a paragraph a few days ago to the effect that this would be a great year for John Smith," and the traveling man who was fixing up the cards in a game in the smoker. "It didn't appeal to me. "As most of you know, that's my name. I am not ashamed of it, but I don't mind saying that I would like to trade it off until that Jamestown affair is over. "If we could have a set of expert humorists to get up the jokes on conditions might be more tolerable; but for everybody you meet to take a shy at the family patronymic is tiresome. "My house thought it would be a good card to have me on the ground the day the show opened at Norfolk. I arrived the night before and put at a convenient hotel. When I wrote my name on the register the torture began. "You're the first on the ground!" exclaimed the clerk, who was evidently a raw one. I confess, however, that I didn't take his meaning, off the bat. "Of course you want the best in the house, continued the mushroom, with a smirk on his face. Then he hammered it in. "The Smith family has the right of way here," he continued, "and 'specially John." "Ordinarily I'm pretty quick on the trigger, but the wretch kept ahead of me. Before I could unlimber he handed out another: "We'll give you the Pocahontas chamber. John—gardon—Mr. Smith. Front!" "Before the bellhop made the plate I was at the bat. I won't delay the game, gentlemen, by quoting my own words, but when I was through the excrement behind the counter was sneaking away as if he had squatted on the hot end of an evicted hornet. In spite of apologies by the landlord I walked out of that tavern and put up at a boarding house where they don't keep books. "The next day I dropped in at the telegraph office and asked if there was anything for John Smith. The man looked at me as a fellow looks at a bat on the sidewalk on April. Quicker than you get your cards I showed him my watch pocket book containing a bundle of col letters to clinch the identification. "I am John Smith," I said, with the words underscored, "and I don't want any funny business." "The man at the window handed out four wires to my address and said in a quiet way that was rather soothing: "I reckon you are John Smith all right, but don't go round here with the idea that you're the only one. The twelfth went out just ahead of you." "I thought it was time for me to do the funny stunt. Seeing that I had anticipated trouble, I said: "Then I'm No. 13!" "As I was going out I heard the man at the window say, 'You're liable to be 23 before you're much older.' "I'll owe that fellow one until I meet him again. I am not the only one of the name that is dodging it, either. "The last night I was in the town I went to the office of a hotel. It was crowded. While I was sitting and smoking an office boy with a telegram pushed his way through the jam, calling out, 'Smith, John Smith! Smith, John Smith!' "Nobody responded. The boy took the telegram back to the clerk, who looked over at the line of occupied chairs along the wall, called out: "What's the matter with you Smiths over there? I know at least a half dozen of you are of that name, and here's a telegram for one of you. What are you afraid of?" "Not a man in the line moved. Later on in the evening after the mob had scattered I sneaked up to the clerk and asked him if anybody had claimed the message. "Yes," he snorted. The message has been read by six different Smiths. Maybe you're the right one. I hope so." "I took it. It was for me. I apologized for my part of the trouble. I said in a snick sort of way that I wasn't to blame for my name. "Course not," snapped the tired clerk, "but if you Smiths would only get together and mark yourselves in some way it would save a whole lot of trouble in this hotel." "I left that town the next morning, and I shall be travelling away from it as long as the exposition lasts. And I've burnt up all my cards."

Mr. Johnson, who is the attorney for the State Retail Merchants' Association, was in the city last night and delivered the address of the evening at the banquet of the Greater Charlotte Club at the Selwyn. Miss Baird, it is certain, was in her room at 10:30. The couple were seen to go in the direction of the Southern station about 11 o'clock, so must have left on No. 35, which left here soon after that hour. Nothing could be learned this morning further than that Mr. and Mrs. Johnson were registered at the Falls Hotel in Gastonia, having arrived there shortly before midnight. The wedding has taken place recently to the parties to which are better known and more popular than are these. Miss Baird is one of the most lovely young ladies of Charlotte and has a host of friends, while Mr. Johnson is a young lawyer of State reputation. There was no objection on the part of the parents of the bride to the wedding, whose contemplation was entirely unsuspected. It is supposed that Miss Baird and Mr. Johnson merely wished to add to their love affair the added spice of romance. It could not definitely be learned whether the marriage ceremony took place in this city or in Gastonia, so skillfully was the plan carried out. Although the acquaintance of Mr. Johnson and Miss Baird had been of brief duration, they had been together quite a long time before and after the Yarbrough-Barron wedding, and had since maintained a correspondence.

Best Service of the Meeting. Rev. Mr. Atkinson Preaches on Coming to Christ—A Clear and Helpful Presentation of the Gospel—His Preaching Resulting in Good—Several Penitents at Last Night's Service. The service at the East Avenue Tabernacle last night was probably the best meeting so far, and the impression for good made by the sermon of Mr. Atkinson and by the entire service will no doubt be lasting upon the minds and hearts of many in the large congregation present. The subject of the sermon was the Coming to Christ, and in an earnest manner Mr. Atkinson spoke of the fame of Christ, the obstacles to be overcome in coming to Him, the manner and purpose of coming, and His all-sufficiency to meet every need of the heart, setting at rest every worry and care. The plea of the preacher to the unsaved was especially strong and effective and at its close, several strong men and women calmly and deliberately walked to front seat of the church as penitents. There was no excitement, but simply a clear and helpful presentation of the Gospel showing man's need of Christ and Christ's willingness to save that influenced those who came forward to take that step. During the two weeks he has been preaching in Charlotte Mr. Atkinson has impressed those who have heard him from time to time as a preacher who instructs and convinces the mind reaches the heart, and presents truth in a manner to influence the unsaved to a better life and the Christian to a higher plane of Christian living. No services will be held at the Tabernacle to-day, but Mr. Atkinson will preach three times to-morrow.
