CITY FATHERS WARM UP. Coats, waistcoats and collars, metaphorically speaking, were thrown aside when Mr Joe Garibaldi arose in his seat at the rear and with carnestness in tone and mien, moved that the anti-soft drink and cigar ordinance as regarding Sunday sales be repealed for the months of July, August and September.

"I rise to speak," said Mr. Garibaldi, "about a matter which concerns the poor man I ask that you give him a thing which is practically necessity and one which at present Coast Line Railway will be enlarged to is beyond his means. The average four divisions as follows: working man, sire, cannot afford to First division from Ric own an hee cream freezer and a refrigerator and make his own cream, etc. I believe if a poll were taken 90 per cent of the people in this city are tired of this force which we have now, Every member of this board violates it, probably. I know that I do, and I do it, well, just because I want a cigar or a cold soft drink some Sunday."

"I take pleasure," spoke up Mr. Shelor, in seconding this motion. For the past three weeks I have taken the trouble to look into this thing a little and I believe the great majority are tired and disgusted with this foolish law, which is disregarded by The only hope of the poor many. man who has tolled unceasingly for six long days and looks to the seventh for some recreation is to go to the park and even here these drinks are forbidden to be sold."

MR. HAYWOOD TALKS PLAINLY. "I defy Mr. Garibaldi," thundared Mr. Haywood, rising and taking a hand in the game. 'to prove that nine-tenths of the people regard the law with disfavor. I defy any man to prove any statistics on this question. The only people who are in fayor of the change are the dealers in these things who want to push their business. I am firmly and unalterably against any move which will lighten in the slightest degree the moral tension of this city. Here I have always stood and here I shall always stand. All this talk about the poor man is pure rot. The poor men are not asking for it. If he'll show me one man more than a majority who is in favor of relaxing these laws, I'll est him hair and hide." "If you did." exclaimed Mr. Gari-

baldi. leaping to his feet, "You'd have more sense in your belly than you have in your head!"

This hypothesis was not pursued further. There were no hostilities and the discussion continued with unabating interest.

LAW HURTS TOWN AND PEOPLE. Alderman L. C. Griffin was the next to speak. "I have visited a number of the druggists," he said, "and I want the privilege of saying that we are not after the privilege of push-ing our trade.
