

THE MCKANNA THREE-DAY LIQUOR CURE

IS the cure that has been endorsed by Governors, Corporations and Municipal Officers throughout the length and breadth of the United States. It has cured thousands upon thousands of people of the dreadful whiskey disease and we are in position to supply to any doubters the original testimonials of the marvelous cures attained by our wonderful cure, the testimonials dating from the time we began business in the West years ago. **Actual Results** are what we are able to show for our meritorious remedy and all of it without the use of the dangerous hypodermic or any other injurious drugs.

All This is Accomplished in a Natural Way

Just as though you were being treated for any other disease by the proper profession. When taking our treatment you have the best comforts and conveniences that a modern sanitarium can possibly devise. Nothing is overlooked here that would in the least tend to add to your pleasure during the term of treatment.

Think of the Time Saved

By comparison you can earn the price of our treatment in the time saved here over that required to administer other treatments and be assured that you have taken the greatest liquor cure on earth—the treatment that has over 20,000 cures to its credit, and all done in a rational manner.

The Treatment Is Perfectly Safe

We administer a medicine that is perfectly harmless, still very effective, and a medicine that does not affect your mind in the least. Our patients are perfectly rational at all times and enjoy a good appetite, which grows by the way, day by day after the patient has commenced taking the cure.

Beware of Fake Liquor Cures

Owing to our great success, a great many "so-called" liquor cures have been and are being advertised and worked. Be careful when you decide to take a cure that you do not fall in to irresponsible hands, because they are only after your money, and in most cases do not understand the liquor diseases or the cures they handle, which often is a formula they have purchased somewhere and traffic with as a piece of merchandise. Can you afford to run the chance of being a cripple for life?

OUR SANITARIUM

Is unexcelled anywhere. Electric lights, hot and cold water, baths, and in fact, every convenience that could be expected in Sanitariums where the rates are more by two or three times.

We Have the Record
We Have the Experience

We Have the Cure
We Have the Reputation

We Deliver the Goods.

Dr. McKanna is located at Reidsville, North Carolina, and gives the Reidsville Sanitarium his personal attention.
