The popularity of the electric fan as a domestic institution grows with the passing of the days and the steady rise of the mercury.

The fourth and final issue of The University Record has just appeared. It is devoted almost entirely to the recent commencement, of which it gives a full and accurate report.

No cotton was sold on the local market yesterday, the record for the corresponding day last year being 73 bales at 11.40. Cotton yesterday would have brought 13.40.

County cantaloupes are rolling in by the cart load these warm days. The popular little melons are good this year and they are holding up in price. Any sort of a juicy looking one will bring 10 cents.

Mr. Leo O. Martin, the young street car conductor who was thought to be fatally hurt in the Seaboard street car crash last spring, has recovered sufficiently to leave the Mercy Hospital, where he has been since confined.

The annual Methodist picnic will be at Big Springs Methodist church Thursday. Revs. J. E. Thomson and Flato Durham will deliver addresses appropriate to the occasion. A large crowd is expected to attend.

Charlotte's contributions to the throngs at the seashore and in the mountains is large and an unceasing one. The question of whether or not vacationers help one has always been a mooted question, but the showing indicates at least that the people have the money to do whatever they want to.

Ice Cream Party To-Night at Ninth Avenue Church.

A lawn party, which promises to be a success in every way will be given to-night at 8 o'clock on the lawn of Ninth Avenue Baptist church, under the auspices of the church, to whose benefit the money will accrue. The cream will be of the highest quality and will be served by the fairest of fair maidens. The affair will doubtless be largely patronized.

New Plant For Making Ice Cream.

Nasal Catarrh Cured.

My little girl was a sufferer for six months. The trouble was in her nose, which discharged freely, a discharge which was offensive, and wherever it would touch the lips or face it would make a sore. Her general health gave way, she became weak and lost her appetite. We tried doctors' treatment for two months without any benefit or relief. We then tried Mrs. Joe Person's Remedy and one bottle and a half of the Remedy and one of the Wash packages made a perfect cure. She was cured two years ago and has never had a touch of the trouble since. MRS. L. H. LEARY. Ahsoskie, N. C., April 31, 1906.
