The Dry Goods Market.

Total bales ...

New York, Aug. 2.—The market for dry goods holds very strong and many buyers are operating in a conservative way. Large contracts are entered into with cotton mills for goods to be delivered as far ahead as July, 1806. Cotton yarrs were easier for the day but dealers think the losses in price will be recovered in a few days under the impetus of the government cotton report. The market for carpet wools is very quiet.

COTTON ZEED OIL.

New York, Aug. 2.—Cotton seed oll was strong on covering of shorts and the bullish report on cotton. Prime crude f. o. b. mills nominal; prime summer yellow 50½; off summer yellow 52 to 53; prime white 63 to 55; prime winter yellow 62 to 55.

INTERIOR RECEIPTS. Last Day. Year.

Little Rock Sea Island Cotton.

Charleston, Aug. 2.—Sea Island cotton market receipts, exports and sales none; stock 55 bags. Quotations omitted.

OWNERS OF LIBERTY BELL.

It Is Not Public Property, But Belongs to Four Sisters.

The ownership passed from Provincial authorities to the State, but in 1818 it was purchased by the city of Philadelphia, together with the old State House and grounds. During the celebration over the arrival of Lafayette in 1824 the bell was rung so vig-forously it became cracked, and a few months later was ordered replaced by a new bell cast by John Wilbank. The later bell is hanging in the steeple

Easily Made Refrigerator.

St. Louis Globe-Democrat. Housekeepers who have only a to be taken small quantity of butter, milk or soon after. to keep cool for a few hours, need not worry themselves to make a long trip downstairs into the cellar to the refrigerator and back again.

An excellent small capacity refrig-erator can be improvised out of a erator can be improvised out of a 12-inch flower pot. Put whatever is wanted on an inverted saucer, in a large dish or tray. Turn the flower pot over the saucer, stop the little drainage hole with a cork, pour water over the pot and let it run down into the tray until it is a half-inch to an inch deep, and the thing is done.

The pot is porous and evaporates the water with sufficient rapidity to keep the interior perfectly cool and the plate of butter or bottle of milk will be as well preserved as though in a refrigerator.

"bracers."

"Give us some more of those 'cock-tails." was the frequent order. "Here's to the divine liquor which is as delicious to the palate as the cock's tails are beautiful to the eye," was one of the teasts; "Vive is cocktail!" sang out a French officer. This was the keynote to the now celebrated name. It stuck.

STORIES OF TAME FOXES.

One Made Playmate of a Buildog-Another Refused to Be Lost. Pall Mall Gazette.

A friend of mine in the Millands, a young doctor with natural history proclivities, has two young foxes in a roomy pen in his stable yard. They were taken from the earth in a private wood, within reach of which there is no hunt. One of the pair Contrary to general belief the old managed to get out of bounds lately, and becoming bewildered by the traffic in the main street of the busy little market town ran hither and thither, a terror to some and the best of John Wilbank, the man who John Wilbank, the man who made the new bell shortly after the old one John Wilbank, the man who made the new bell shortly after the old one was cracked, and who took the old bell as part payment. Three of the sisters, Mrs. James B. McClosky, Mrs. G. D. Emerson and Mrs. S. B. Coward, live in Philadelphia. The fourth, Mrs. S. W. B. Diehl, lives in Washington, D. C.

I'll stop your pain free, to prove merit, samples of my Dr. Shoop's Restorative and my book on either Dyspepsia, The Heart or The Kidneys, Troubles of the Stomach, Heart or Kidneys, are merely symptoms of a deeper aliment. Don't make the common error if treating symptoms only. Symptom treatment is treating the result of your aliment, and not the cause. Weak stomach nerves—the inglide nerves—mean stomach weakness, always. And the Heart, and Kidney's as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's restorative has made its fame. No other remody oven claims to treat the similar nerves. Weaken the second or the many burners. Well, martha, how's that range to ing?"

Satisfactory Fire.

During the discussion of the Mad-den bill for cheaper gas Congressman Legare told the following story of a cook he had once brought home with him. She was a splendid servant, but she didn't know anything about gas to cook with, so he went to the kitchen with her to explain about the range. So that she could see how it operated, he lit each of the many burners. While still explaining, a
