NEWS FROM TRINITY COLLEGE.

Fayetteville Sunday School picnic on the campus—Dr. Highsmith, of Wake Forest College, to marry—Library Equipment Received—Personals. Special to The Observer. Trinity College, Aug. 9.—The campus was a scene yesterday of unusual life and jollity, when about 400 Fayetteville picnicers with their baskets arrived. It was an occasion of an excursion from that town under the auspices of the Hay Street Methodist church, and under the direction of Mr. Johnson, superintendent of the Sunday school. The members of the party spent the day on the park viewing the grounds and visiting the different buildings. Late in the afternoon the party left over the Durham & Southern for Fayetteville. Cards have been received here announcing the marriage of Dr. J. Henry Highsmith, of this city, to Miss Lula Johnson, also of this city. Mr. Highsmith is an A. B. and A. M. graduate of Trinity, having taken the first degree in 1890 and the latter in 1902. For some years after graduation he was connected with the Durham graded schools, filling positions both as principal and teacher. In 1904 he entered the graduate department of Columbia University, New York City, from which institution he took his doctor's degree in 1906. During the past year he has been teaching in the Baptist University for Women in Raleigh. Next year he will be a member of the faculty of Wake Forest College. The marriage will take place at Main Street church, Durham, August 21st. After the first of September Dr. and Mrs. Highsmith will be at home at Wake Forest. The growth of the library has made it necessary to provide more shelves for the stack room. The shelves are now here and are being put in place. A number of cases for historical relics have also been ordered for the historical museum in the library building. The historical society is securing a great many valuable additions to its already interesting and valuable collection. Prof. and Mrs. W. H. Wannamaker, who have been spending the summer in Durham, have gone to South Carolina to visit relatives and friends. They will be away from the city until the opening of college in September.—Prof. and Mrs. J. C. Wooten, who have been at the Jamestown Exposition, have returned to the park. They are at present living in the Mary Duke Building.—Mrs. J. E. Campbell, of South Carolina, who has been visiting her brother, President John C. Kilgo, has returned to her home.—Prof. H. M. North, headmaster of Trinity Park School, is spending this week in Norfolk attending the Jamestown Exposition.—Prof. Albert M. Webb, of the department of romance languages, is now in Paris, France.—Mr. W. M. Wells, of Elm City, has been on the campus a few days, the guest of Mr. Paul Webb.—Mr. J. G. Gillespie is spending a few days in Raleigh, visiting friends. DOCTORS COULD NOT HELP HER.—"I had kidney trouble for years," writes Mrs. Raymond Conner, of Shelton, Wash., "and the doctors could not help me. I tried Foley's Kidney Cure, and the very first dose gave me relief and I am now cured. I cannot say too much for Foley's Kidney Cure. It makes the distressed kidneys sound and they will eliminate the poisons from the blood. Unless they do this, renal health is impossible. R. H. Jordan & Co., Price 25c.

Justice, representing Charlotte's business interests, were here to-day to appear in the railway freight conference and hearing which was not held, and they returned home this evening. They were not at the corporation commission office. Governor Glenn says that when he found the Norfolk & Western road would not be represented at to-day's conference he wired other roads and also cities not to send representatives. Eugene Balling Sturgeon, for several years mayor of Apex, this county, is dead, aged 58. He was a native of Washington, D. C., a graduate of the Naval Academy and was with Farragut at Mobile as a lieutenant. His father was secretary of the United States Mint and his grandfather was a United States Senator from Pennsylvania. The first of the designs for the \$5.00 silver service this State is to present to the grand North Carolina was submitted to-day by the local firm and was inspected by members of the Council of State, the Governor being absent. Bailey, of the North Carolina Anti-Saloon League, has appointed the following delegates to the annual convention of the National Anti-Saloon League to be held at the Jamestown Exposition September 16th to 19th: Herriot Clark, H. M. Blair, F. S. Blair, C. W. Blanchard and T. N. Ivey. L. B. Large numbers of North Carolina flags and buttons have been sent from here to the North Carolina Society at Norfolk for use at the reception to be given to Governor Glenn and the other State officers and the staff at the Atlantic Hotel, and for further use during the week. Last week Governor Glenn made a requisition upon the Governor of Tennessee for a swindler named Carlyle, who beat a farmer in this county out of \$150. The Governor of Tennessee says he does not think Carlyle was guilty of any offense. Under the North Carolina law he is guilty of a felony, the attorneys declare. They were before Governor Glenn to-day and he made another effort to get Carlyle, who tried to escape from custody in Tennessee, and who is now at large there under bail. MARRIAGES.

James-Lollar Greina Green at Statesville. Special to The Observer. Statesville, Aug. 9.—A well-planned runaway marriage with a touch of romance occurred in Statesville at a late hour Wednesday night, when Mr. Clyde James and Miss Lola Lollar, both of Winston, were united in wedlock at the home of the officiating minister, Rev. J. F. Mitchell. The young couple are still in Statesville and may decide to make this place their home. Mrs. James is the attractive young daughter of Mr. Sim Lollar, of Winston, who is an engineer on the railroad between Winston and Mooresville, and the father of the bride was the cause of the runaway, he being opposed to the match. Mr. James is a furniture carver and has been connected with one of the Winston furniture factories for some time. He and the pretty young woman of his choice were determined to be married in spite of the objections and they hit on a good scheme to carry out their determination. The young woman has been visiting relatives at her former home in Catawba county for some time and Wednesday Mr. James arrived in Statesville. He was met here by a number of friends, who helped roll the ball towards the goal the best they could. Securing a team here the groom-to-be drove to Catawba county and brought the young woman to Statesville, arriving here late in the evening. The friends here had made all necessary arrangements and all the sweethearts had to do was to drive to the Western Avenue Baptist parsonage, where they were met by a number of friends who witnessed the marriage in the parlor of the parsonage. Immediately after the ceremony the happy young couple drove to the home of Mr. Jacob Matheson, where rooms had been engaged for them. Mr. James was a few years ago connected with a furniture factory here and he may decide to take a position with one of the woodworking plants and remain in Statesville. He is an experienced carver and an industrious young man. Miss Lollar is a popular and attractive young woman and was quite a number of friends in this county who will be interested in the announcement of her romantic wedding. Benton-Fisher, at Carthage. Special to The Observer. Carthage, Aug. 9.—Miss Minnie Fisher and Mr. Bensley Benton were married Wednesday at the residence of Mr. F. A. Fisher, 3 miles from here on R. F. D. No. 7. The ceremony was performed by Rev. C. L. Dawell, pastor of the Baptist church of this place. Mr. Benton is a clerk in the Charlotte postoffice and his bride is a popular young lady of this county, who was formerly of Union county. The young couple left yesterday morning for their future home in Charlotte.

The two areas in North Carolina in which coal occurs are known as the Deep River and Dan River fields, from the two rivers which drain them. The coals are of the same geologic age as those of the Richmond coal basin in Virginia. The only productive beds in recent years are those in the Deep River district, in Chatham and Moore counties. No coal production was reported to the United States Geological Survey from North Carolina in 1906. The output from the Cummock mines, which had decreased from 23,000 short tons in 1902 to 17,300 tons in 1903, to 7,000 tons in 1904 and to 1,557 tons in 1905, ceased entirely in 1906. FAILED. All efforts have failed to find a better remedy for coughs, colds and lung troubles than Foley's Honey and Tar. It stops the cough, heals the lungs and prevents serious results from a cold. J. N. Patterson, Nashua, Iowa, writes: "Last winter I had a bad cold on my lungs and tried at least half a dozen advertised cough medicines and had treatment from two physicians without getting any benefit. A friend recommended Foley's Honey and Tar and two-thirds of a bottle cured me. I consider it the greatest cough and lung medicine in the world." R. H. Jordan & Co.
