SLUGGISH AND FLUCTUATING.

Pinancial District Inclined to Await the Outcome of the New York City Bond Sale—Official Denial Concerning Distribution of Northern Pacific Dividend—Bank Statement Falls to Show Expected Gain in Cash—Heavy Tone of Market Unrelieved.

New York, Sept. 7.—The speculation of the growth of t

live movement in stocks was disposed to mark time to-day. Prices moved the future market out of line. Encourduggishly and fluctuated frequently. The holiday in London was partly responsible for the guliness. The financial district also is inclined to await the outcome of the New York City bond sale for clearer light on some of the conditions which are counted upon to sustain the improvement which has taken place in the securities market. Bids for the \$40,surities market. Bids for the \$40,-000,000 issue of 4 1-2 per cent. New York City bonds are to be opened next Tr sday. The official denial of yesterday's

rumors of an intended distribution ing lower on account of the decline in of a 25 per cent, extra dividend to Liverpool where traders had been long Northern Pacific stockholders dashed and closing quiet and steady at a shade some of yesterday's speculative enthusiasm, as these rumors were a main incentive to the movement. The bank statement also failed to show the expected gain in cash, the decrease of \$1,420,900 contrasting with early estimates of the gain of \$2,000. Loans also showed a small expansion, the next result being to reduce the surplus resrve to \$7,372,350. Meantime it became known that daposits of Treasury funds have been made with some of the banks in the financial district and that more are in prospect next week. The contrast with the bank statement of this week a year ago is striking. In that week. notwithstanding a loan contraction of nearly \$12,000,000 the surplus disappeared before a shrinkage in that item of \$9,447,325 to a deficit of \$6,-577.925, the cash holdings having been depleted \$16,508,100 by the week depleted \$16,508,100 by the week stock 2,582.
