Why You Should Insure Your Life

Because Its Benefits Are Certain

Fire may come; death must come. The fire premium is a necessary expense; the life premium is a desirable investment.

Your fire policy may never mature. Your Life Policy, if kept in force, will inevitably mature.

Because It is the Safest and the Best of Investments

Every Life Policy issued by a sound company is an asset which at maturity cannot possibly be worth less than 100 cents on the dollar.

No company in the world offers greater certainty of payment than the Equitable. This is the first consideration in Life Insurance. No company can furnish safe Life Insurance at a permanently lower cost than The Equitable. For information concerning the NEW YORK STATE STANDARD POLICY, call on or address
