

PRICE REDUCED JUST ONE-HALF

IN ORDER that suffering humanity may get more benefits from the far-famed and eminently successful McKanna Cure for whiskey diseases, we have decided to make a move never made before in the history of this cure. Inasmuch as we pay no royalty to any parent corporation, we are in position to, and from this date, do offer our treatment the charge for which has always been \$100, for

\$50.00

In reducing the price there will be nothing taken away from the treatment in order to make up the difference--positively every service and attention heretofore rendered will be continued at our Sanitariums. We are better equipped to cover the Carolinas to-day than ever before, having just completed a well-arranged Sanitarium at Columbia, South Carolina.

A BONA FIDE CURE Is the McKanna 3-Day Cure

It has stood the test for twenty years, no dangerous drugs, no hypodermics. You cannot afford to experiment, when you have access to a strictly reliable cure, administered by reliable people. Write for free booklet.
