TELEGRAPHIC SITUATION.

Western Union Telegraph Company in Charlotte Has 29 Men at Work on the Wires, Conditions Being Practically Normal Again—No Delay in Transmission of Messages to Points Handled Direct.

"We have now 29 skilled operators at work, having added two Monday and five to-day," said Manager J. E. Hammerley, of the Western Union Telegraph Company, last night. "We lack only four or five of having our normal force at work, and there aren't any dummies there, either. So far as the Charlotte office is concerned, we are now handling business for points which we reach direct without delay. Owing, however, to the fact that we do not know the conditions at the points beyond those with which we work direct, we will still accept business for them subject to delay."

The places with which the Charlotte office works direct includes New York, Philadelphia, Washington, Richmond, Greensboro, Raleigh, Durham, Asheville, Atlanta, Greenville, Spartanburg, and 300 local offices in the Carolinas and Virginia. The office is in good shape and the receipts for the 10 days show a healthy increase over those of last year at the same period. The cotton season proper is approaching and the company will be able to handle all this business entrusted to it. We will have four or five more men by the last of the week."
