STOCK MARKET MORE ACTIVE.

the Most Pronounced Influence on the Day's Market—Continued Ten-sion in Money Market.

sion in Money Market.

New York, Oct. 3.—There was more activity in the stock market to-day and the decreasion was less passive than in the torpid market of yesterday. The most pronounced influence on the day's market was the large selling for foreign account, not only on orders from London but also, it is said, from Amsterdam and other Furopean points.

Continued tension in the money market was a restraint on any demand for stocks and kept the market vulnerable so far to attack. The rate for call loans did not go so high as yesterday and showed

go so high as yesterday and showed indency to relax from the early high

me money rates were higher. For the time this week the banks showed a on the day's sub-Treasury opera-s which were influenced by the payment of government interest. Grain and cotton exports continued to make large supplies of exchange. There was a substantial rocovery from the early declines whilch left the day's net changes mixed. Bonis were easy. Total sales, par value, \$1.175,000.

El.178,000.

U. S. fours declined % per cent. on calf.

steady at the moment. January around HAYWARD, VICK & CLARK.

J. S. Bache & Co., Cotton Letter. ton Letter.

New York. Oct. 3.—There was some pressure on the cotton market this morning. Liverpool came at about our level but some selling by foreign interests caused a decline near our opening. January declined to 19.83, Pecember 19.75 and March to 19.95. After the early break there followed some covering. The weather may was unfavorable and market continued to improve with buying from the south and covering by traders. Mr. Price & estimate including linters was 13. F22.019 bales, issued this morning. The 9 bales, issued this morning. The ency of trade is make estimates all depending on the date of frost and there seems to be somewhat of an agreement of ideas that crop will show around 12 willion. This view does not certainly farounced yesterday that, in spite of splendid weather keeps up, we should experience further declines in future. The model situation is not an encouraging the demand. The middleman to hold cotton against this threatened stringency. We favor the selling adde on all suiges.

J. S. BACHE AND CO.

Hubbard Bros. & Co.'s Cotton Letter. Special to The Observer.

New York, Oct. 3 -Although the market has been lower than yesterday, there is a feeling that the movement is so light that we may soon expect a better demand from spinners. This feeling is especially noted in the cable advices from Liver-pool, where more attention has been of pool, where more attention has been of such a character as to indicate a yield in excess of the demand. To-day, however, there is a change in the character of the advices from the Mississippi valley, where the crop is reported as disappointing in its outcome. It is a weather market and should we have any change from present weather conditions for the worse there would be an active demand, as we believe the late crop requires very good weather. The spot market was quiet at 5 points decline.

APPEAL FOR THE FARM. Hayward, Vick & Clark's Daily Cot-ton Letter. Independence and Happiness Flour-ish On the Soil.

New Orleans, La. Oct. 2.—Liverpool was fairly steady at soout 5 points decline as dive up to 2:30 p. m. when another break occurred on seiling from abroad. Cables sty continent and America relling There were no special developments office were night. Gur market opened 7 to 9 lower in sympathy with the decline in others, but soon recovered, some of the to 9 lower in sympathy with the decline in others, but soon recovered, some of the less on short covering and unsettled weather conditions presented by to-day's man, so that I do not think that the farmers need to be looked upon, or want to be looked upon, as described on the less of a machine and more of a man, so that I do not think that the farmers need to be looked upon, or want to be looked upon, as described on the looked upon the looke weather conditions presented by to-day's man. Showers were general in the west and middle belt and the approach of a cold wave is likely to cause a general wet spell in the belt over the week-end. Parties returning from Furope say that there is as much cotton sold shead to spinners at last year, only it is sold by noiddlemen and not by American spot speculators as last year. These middlemen are more skilled in handling such engagements and knowing the state of affairs on our side, are covering as slowly as possible. This is bound to reveal itself whenever cotton frops to an attractive price or the basis sets right. In the absence of active speculation we shall probably see terking man, so that I do not think that the farmers need to be looked upon, or want to be looked upon, or on the specific set of the State. They do not come to the State government asking alms. They are intelligence we want in connection with every other field of noble effort. We want training, we want intelligence, we want scientific method, we want direction, we want the way shown and then the man can walk in it. There is no reason why the same care and intention and skill and scientific consideration should not be devoted to agriculture as to industry and the technical trades. The men who are running away from the farms to frequently make a mistake, and some day in New York—and the day is rapidly approaching—our young is rapidly approaching—our young ment, in larger numbers will wake up to the fact that they have a pretty they may be to a greater degree independent and hoppy in life if they

in the United States treasury, only a two-days' supply of two-dollar bills, and only a ten-days' supply of five-dollar bills? Well, it's a fact, and United States Treasurer Treat announced yesterday that, in spite of everything he can do, he can't make

run out and the people trading at stores with ten, twenty and fifty dollar bills will have to take silver "cart-wheels" in change.

Mr. Treat says that the cause of the scarcity is his inability to hire enough skilled laborers at government wages to make the notes.

The Barbarism of Eunting. Lincoln Herald,

Hunters often witness the killing of innocent victims, and see the suffering and agonizing death, of birds and animals that dearly love their lives, and have done their hunters no harm. Most huntsmen of kindly na-ture tell you that at times a feeling of self-reprosch has passed through them as they stood by the dying victims of their skill.

The slayers of elk, deer, and antelope can tell you of seeing the terrorstricken eyes of those animals, filled with tears, glaring at them with mute reproach as they sobbed their lives away, and deprived of all power to wreak vengeance on their human aggressors. Such memories should haunt men, who are not hardened or calloused with savagery.
