and bull support. Higher cables and expectations of relief from tight money through the measures processed by the government seemed the main builtsh factors, and the demand came largely from Wall Street shorts. After the first hour of covaring the demand was less active, and during the middle session prices cased off several points from the best, but steadled up again in the late trading on reports that a prominent spot firm in the Eastern belt had estimated the crop at only II.650,000 bales.

The market closed within 2 to 3 points of the top. There was comparatively little news from the South regarding spot conditions. The markets officially reported were 4 lower to 4 higher. Some of the local spot people reported that offerings to New England were poorly received but there was talk of a demand in the interior for expert. Foreign houses were buyers here during the early session while some of the local traders were selling during the day on this theory that the advance was merely a speculative spurt, reflecting the sentimental effect of government efforts in behalf of the money market.

Receipts at the ports to-day 85.33 bales against 61.923 last week and 67.846 last year. For the week 240.000 against 354,243 last week and 412.94 last year. To-day's receipts at New Orleans 15.685 bales against 15.602 last year and at Houston 16.657 bales against 13.27 last year. 11.65; stock 3.929.

STOCKS BOUND UPWARD.

Effect of the Government's Relief Plan is Galvanic—Prices of Securi-ties Jump. But Slip Back Under Rush to Buy.

New York, Nov. 18.—The first effect onthe stock market of the United States
government relief plan was galvanic,
sending prices jumping from 1 to 4 points
over Saturday's close throughout the list.
These prices proved to be the highest of
the day and the first rush to buy gave
place to a languid and indifferent demand which allowed prices to slip back.
Financial authorities in the New York
hanking district were by no means
agreed as to the probable demand for
the government's notes, upon which the
success of that portion of the plan of
relief would manifestly hinge. The fact
that these notes would not circulate as
currency was regarded on the whole,
with satisfaction, as there is an undoubted growth of solicitude over what
may be the secondary effects of the large
injection that is being made into the New York, Nov. 18.-The first effect on injection that is being made into the Lank note currency under the emergency requirements for which but cumpersome methods for the retirement yet exists. The like consequence is urged that the breaking of the deadlock, due to hoarding, and the reflux of supplies into the currency a condition of redunancy will be developed which it is feared may force an excessive outgo of gold.

The extravagant rates which have been paid for foreign exchange with the advantage of the currency premium gave way in-a violent decline in that market Poreign money markets plainly reflected the assumption that the success of the government relief plan would lead to a cessation of pressure upon those centres for more gold. The engagement of addi-tional amounts of gold in London to-day did not affect this view. On the domestic side there were reports from railroad traffic officials of a decisive effect on the indvement of merchandise from the money crisis Bonds were irregular. Total sales, par

New York, Nov. 18,-M. & O. ct. 4s New York, Nov. 18 -Standard Oil 461.

Hubbard Bros. & Co.'s Cotton Letter. Special to The Observer.

New York, Nov. 18.—Liverpool opened four points lower, but on receipt of the news of the action of the Treasury De-partment advanced sharply, until at the close under some buying for the milis and outside investmen interests. The Suying set in, which was put down to one or two of the larger shorts who ap-peared to be covering in advance of the others. The local trade remains bearish,

We find buying by mills of distant deliveries becoming quite a feature, and we hear of some New England mills perrowhear of some New England mills secrowing cotton from others who are themselves pursuing a band-to mouth polley. Snould the financial situation continue to improve, as we believe it will, there will be a sharp demand drom spinners, especially as the tendency is to further reduce estimates of the yield this senson. Meanwhile the large short interests feel perfectly confident of lower prices.

Interborough Metropolitan 1148 KAISER IN BAD HEALTH.

To Rest in the Lale of Wight-Kaisedin Won't go To England. London Dispatch to New York Sun.

The arrangements for the visit of the Kaiser and Kaiserin to the British court have been suddenly alter-ed, susing surprise there and in Everything had been prepared for their departure on Novem-

It was announced to-night that the Kaiserin would not come to England and that the Kalser, after court visit, would stay privately for a few weeks on the Isle of Wight for reasons of health. It was explained that the Kaiserin has been nursing Princess Alexadra of Sonder burg-Glucksburg, the fincece of her son, Prince August, who has been suffering from chicken pox at the Berlin Castle, and feared she might convey the infection to members of the British royal family. She is also anxious concerning her own daugh-ter. Princess May, who is already infected by the disease, and hence she-

reductantly abandoned her visit.

The Kaiser, who will start for London on Friday, has been suffering from catarrh, and has been in bed part of the time for several days. He is still far from well, and his physicians have advised him to recuperate by visiting the Isle of Wight for a few weeks. The fact that such a long reet is considered necessary for him is causing a sensation in Ber-lin, where his ailment has been sup-posed to be trivial, and the surprise is not dismissed by an official admiss-ion that recent events, synchronizing effect on the Kaiser himself, whose general health has been injured there-

The indefi ntieprolongation of the Emperor's stay in England will unset numerous official, military and private engagements, and arouse much speculation.

HOW TO CURE A COLD.

HOW TO CURE A COLD.

Be as careful as you can you will occasionally take cold, and when you do, get a medicine of known reliability, one that has an catablished reputation and that is certain to effect a guick cure. Such a medicine is Chamberiain's Cough Remnedy, it has gained a world-wide reputation by its remarkable cures of fills most common ailment, unit can atways be depended upon. It acts on nature's plan, reliaves the lungs, also expectoration, opens the secretions and aids nature in restoring the system to a healthy condition. During the many years in which it has been fix separal use we have yet to learn of a single case of cold or attack of the grip having resulted in pneumonia when this remedy was used, which shows conclusively that it is a certain preventive of that dangerous disease. Chamberiain's Cough Remedy contains no oplum or other narcotic and may be given as confidently to a baby as to an adult. For sale by W. L. Hand & Co.
