#### THE STOCK MARKET.

No Signs of Selling Out Collateral in Loans—Prices Advance on Small Demand—Favorable Light Thrown on Western Banking Institution.

Demand—Favorable Light Thrown on Western Banking Institution.

New York, Nov. 25.—There were none of the signs of selling out of collateral in loans in to-day's stock market, such as has been the depressing influence at intervals for some time past. Free from this influence, the scarcity of the market supply of stocks again became manifest—and prices advanced easily on a small demand. The advance in prices did not bring out increased offerings, but the scanty demand became even lighter. It is a small demand. The advance in prices did not bring out increased offerings, but the scanty demand became even lighter. It is a state of the day was the growing the market in a condition of extreme duliness in some of the later stages. A feature of the day was the growing ease of the call money market, largely due to the small demand for loans at the stock exchange. The approach of the end of the month leaves open a probability of a temporary hardening of money rates to meet the large requirements of that period. The interest and dividend payments for December still show an aggregate far in excess of previous years, arguing the continued high rate of the distribution of profits. The ease of the vall loan market did not bring corresponding increase in the demand for commercial paper, for which there is yet practically no market. The refusal to take commercial paper by the small interior banks is charged by New York dealers to be an accompaniment of a piling up of cash holdings to the point of surfeit.

The day's most important development was the favorable light thrown on

a piling up of cash holdings to the point of surfeit.

The day's most important development was the favorable light thrown on the affairs of a Western banking institution which has been the subject of suspicion in the recent past, but which is now understood to be insured combined protection by pledged support of the banks of several of the great money centres, including New York. Sales of currency were of only a few thousand dollars, mostly in bills of the smallest denominations, supposed to be for pay roll purposes. The rates paid for foreign exchange were lower and to-day's engagements of gold abroad were light. The private rate of discount declined in London, which was taken to reflect the belief that our demands for gold are coming to a limit.

New York, Nov. 25.—An increased demand from Manchester was the feature in Liverpool, which prevented the expected decline abroad, and while our local trade pected decline abroad, and while our local trade were very pessimistic, they were the only sellers during the first hour. Then one of the Wall Street houses, which has been identified with the short side, appeared as a buyer taking so much of the offerings, that the market advanced some 25 points before a reaction set in. The reaction, however, did not prevent the market from closing 15 to 17 points higher than yesterday and it was higher after the close.

Chicago Grain and Provisions. Chicago, Nov. 26.—Urgent demand for cash wheat in Northwestern markets and a liberal decrease in the world's visible supply wrere responsible in a large measure for a sharp rally in the Chicago wheat market to-day. At the close the May option showed a net gain of 1½. Corn was up %. Cats were % to 1c. higher, and provisions advanced 20 to 40.

G. B. Burhans Testifics After Four

G. B. Birmans, of Carlisle Center, N. Y. writes: "About four years ago I wrote you stating that I had been endrely cured of a severe kidney trouble by taking less than two bottles of Poter's Kidney Cure. It entirely stopped the brick dust sediment, and pain and symptoms of kidney disease disappeared. I am gind to say that I have never had a return of any of those symptoms during the four years that have elapsed and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to any one suffering from kidney or binder trouble."
