aple Rises Sharply in Response to Covering and Bull Support—New Crop Steady on Reports of More Rain in the South and Backward Farm Work—The Closing Prices Slightly Off From the Best.

advance on covering and bull support. The cless was barely steady in tone but prices were 22 to 15 points net higher states were estimated at 350,000 bales.

The market opened steady at a decline of 5 points to an advance of 2 points, did crop months being influenced by lower cables than expected while the new crop was relatively steady on reports of fur at rain in the South and additional delays in farm work. There was some rather confident selling during the early session but demand was good, spot people were buying for the near months and shortly after inidday the upward tendency became more pronounced as a result of a circular from a leading outside operator reducing his estimate of the trop from 12,000,000 to 11,509,000 bales, and predicting a deficiency in the available operator reducing his estimate of the trop from 12,000,000 to 11,509,000 bales, and predicting a deficiency in the available operator reducing his estimate of the trop from 12,000,000 to 11,509,000 bales, and predicting a deficiency in the available operator reducing his estimate of the trop from 12,000,000 to 11,509,000 bales, and predicting a deficiency in the available operator reducing his estimate of the corp from 12,000,000 to 11,509,000 bales, and predicting a deficiency in the available operator reducing his estimate of the corp from 12,000,000 to 11,509,000 bales, and predicting a deficiency in the available operator reducing his estimate of the corp from 12,000,000 to 15,000,000 t

constituent of the stock market fell to-day larges it a sterile field from which the day kay lesson bearing on general affairs except as inference is full matified, for instance, that speculative lifting the largest of the market. It was known early in the day that a message to Congress from the President was to be sent in during the day, and some repressive influence was as signed to this. The neglected condition of the market was unrelieved after the abstracts of the message were printed. The usually active arst hour of the market for transfer, the second hour's business dwindled to haif a hundred shares for transfer, the second hour's business dwindled to haif a hundred thousand, and the noon hour to haif of that. The meeting and adjournment of the Erie directors without taking action on the dividends on the two preferred classes of stocks were not a surprise. The Erie stocks hardened slightly after the nonaction of the directors became known. The sluggish inovement of prices showed the same tendency as for several days to retrace its early course during the later portlom of the day.

U. S. bonds were unchanged on call.

New York, Feb. 26.—Standard Oil 483. New York, Feb. 26.—M. & O. ct. 48 77% Baltimore, Feb. 28 - Seaboard common

Special to The Observer.

New York, Feb. 26.—In Liverpool a sharp decline occurred owing to the selling of March and buying of July to reverse a straddle operation, together with the weakness in the American markets yesterday. These advices led to a lower opening, but it was soon seen that a demand for the control, of our stock was present. This led to a slow and finally to a rapid advance sided by a chance of position by a trader who has been wreng on the crop all the season. Beneath the change in the market to-day was the development of a sudden demand for print cloths in Fall River, attributed to the prominent manufactures who so frequently absorbed all the offerings of cioths. The advance while bringing some outside buying did not change the opinion of the larger operations, who still remain bearish and regard the improvement of to-day as only a natural reaction in the course of a declining market.

New Orleans, La., Feb. 25.—Cotton spots opened casy and closed firm with prices unchanged. Middling 11%; sales were 2,800 bales on the spot and 1,000 to arrive.

Futures opened steady 3 to 3 points below the close yesterday, as a result of a disappointing Liverpool, foreign cables stating that there was general selling of forward contracts, as well as reporting failures in Alexandría, Egypt. Large buying orders in the local market soon imparted strength to futures, and this steadiness was augmented by the firm ness of the spot market. Activity on the part of the bullish room traders made up largely for the absence of speculative support and a general advance in prices characterized the market during the late seesion. At the close, which was steady, the active months were 7 to 16 points above the close yesterday.

Clésing bids: Feb. 10.74 nominal: March 10.75; April 10.71; May 10.65; June 10.65 nominal; July 10.62; Oct. 10.04; Dec. 10.01.

BURGLARIES AT WAYNESVILLE.

A Negro is Frustrated in His Attempt

to Enter a Home and is Caught.

Last night some one entered the residence of Capt. J. H. Payne by

raising the cook-room window. The burglary was not discovered until af-

ter Mrs. Payne had made the fire in her cook stove. She then saw that the window was propped up on a

stick. As she missed nothing, she thought the barking of a Jog fright-

ened him away.

About 4 o'clock this morning a negro made an attempt to enter the residence of Charlie Lee. He had

succeeded in removing a screen from

of his daughters, but the negro was

quick in making his escape. Mr. Lee then, with his son and a neigh-

bor, and lantern, tracked the negro

to Canton, twelve miles distant. The

Canton, giving a description of the negro, so when he arrived at Can-

George Meredith's Success.

Is there anything that a man more

needs in this new-found world of

Ernest Haeckel than the assurance

that nature, as Meredith puts it, "leads

ordained demonstration of the spiritual tradition and spiritual life. There is

more hope for humanity in this brave

and clear-eyed reading of earth than in all the theology of timid souls that fear the light of science will discover

their flimsy faith as a thing of shams, about to be dissolved with Prospero's palaces and towers into thin air.

Strange conception of Delty, that what

it has written in nature and in the heart of man must be suppressed or expurgated in order to keep the not verse from being disowned and outcast in our feeble, faltering minds:

Mr. Root and Mr. Bryce.

Our British cousins entertain ----

a finish, it should be suggested to him to diver Secretary Root with gifts of colored giass beads and calica. Fire-

water, once potent in such dealings.
