ANOTHER ICE FACTORY.

The Yarbrough & Bellinger Company to install a Modern Ice-Making Plant—No Cut Projected in Present Prices—Plant to Be in Operation by the First of June at Least. Charlotte is to have another ice factory. The Yarbrough & Bellinger Company, which has been engaged in the coal business in this city for the past 10 years, has arranged for the installation of a modern and up-to-date ice-making plant, which will be in operation, if nothing to the contrary happens to disturb present plans, by the first of June. This ice plant will be managed in connection with the present established business and will not mean any reduction of present connections in the least, rather a material expansion.

The Yarbrough & Bellinger Company is incorporated in March 1907, although the partnership of Messrs. J. A. Yarbrough and George A. Bellinger commenced eight years prior to that time, in July 1899. In order to finance the new department, the company's capital stock will be increased to \$75,000 and a few prominent local capitalists will be taken in, there being now but two stockholders, Messrs. Yarbrough and Bellinger.

In response to questions, Mr. J. A. Yarbrough stated last night that there would be no cut in present prices now charged for the local market, which he thought would be fair that with better services and superior goods a fine trade in the ice business could be built up in Charlotte.

This announcement of the fact that a second ice factory is to be established in Charlotte will be read with the keenest interest. The Standard Ice and Fuel Company has had the field to itself ever since its purchase of the People's Ice and Fuel Company several years ago.

Never Give Up the Ship When You Can Get Mrs. Joe Person's Remedy.

Greensboro, N. C., Jan. 29, 1908. 427 Ashboro St. Last August my husband, who is a railroad man, was badly hurt by having a severe blow on the head, caused by a piece of iron falling on it. In a few days he suffered badly from dizziness, and he was not able to walk across the room. Then nausea set in and he vomited everything he would eat. We became very uneasy about him, as the doctors could not define the nature of his hurt. His whole system became involved from his condition, the doctors' treatment gave him no relief, and one of the physicians advised an operation. He discharged a great deal of blood from his nose and would frequently vomit blood, but the doctors said that came from his stomach and not from the hurt. Then one of my friends, who had unbounded faith in Mrs. Joe Person's Remedy, begged me to use it. My husband lost his head and was greatly reduced, and at that time we did not expect him to live long. We got Mrs. Person's Remedy and put him on it, and in twenty-four hours we could see a change for the better. The vomiting of blood ceased, which made us hopeful. We continued to use the Remedy and it made a perfect cure, and he is now well and in good health. MRS. E. A. RIVES.
