Mr. Siler then read Acts 16, 1-8, this peing an account of Timothy's call to the ministry. He spoke in part

"Many reasons have been assigned. The chief cause is want of higher life ideals." Mr. Siler then spoke to four points: The minister defined; the minister fires are created; the minister at work, and the

minister surrendered.

He defined preaching in the lan guage of Phillips Brooks as, "Truth

Caldwell This being the closing service of the special series Mr. Siler expressed himself as highly gratified with the results. The membership in the various churches has been much blessed and a large number has been reclaimed and converted. It is impossible to tell at this time how many. Mr. Siler stated that this united service was intended to be but the beginning of a simultaneous cam-at Calvary yesterday, where the pastor, Rev. J. F. Totten, will be ably assisted by Rev. C. M. At President Johnson's reques Miss Powell, of the department of expression, gave a most interesting and instructive talk on the speaking and conversational voice. Miss Powell said that "the tones of the voice reveal one's character, state of mind and state of body. If a person is fault-finding, querulous or moody, the tones of the voice will indicate these qualities of the mind just so surely as the voice will indicate the opposite characteristics. So, too, the voice indicates sorrow or happiness, health or sickness. The force which produces voice must come from the centre of the body. If the body is cramped, then the tones cannot be full and pure. A stiff body shows lack of imagination. Selfishness, envy and jealousy cramp and tighten the mind and soul, and just as surely they cramp the body and When the opposite emotions are cultivated the voice and body show the result in the tones and carriage.

A low, sweet voice commendable in woman cannot come from without; it must come from within. The voice is the reporter of the individual. have this low, sweet voice we must hear beautiful music, see beautiful pictures, read beautiful poems.
