COTTON NERVOUS, IRREGULAR

Market Opens Steady at a Decline and Closes Steady But Still Lower—A Siight Raily in the Middle of the Session on Covering From Spot Houses—Trading Not Active or General at Any Time During the Day.

New York

New York, June 26.—The cotton market was nervous and irregular during to-day's session with the close steady net 5 points lower to 3 points higher. Sales were estimated at 125,000 bales.

The market opened steady at a decline of 5 points to an advance of 2 points, near months being relatively easy under July notices, while later positions were sustained by steady cables and Wall Street covering, notwithstanding good weather and orop reports. July notices were estimated at about 20,000 bales, and after some little irregularity the market eased off under scattering liquidation, which seemed to be promoted.

July sold off to 978 during the middle session, while August touched 972, or 14 to 17 points net lower, but the new crop showed remarkable steadiness and at the lowest ruled within 2 or 3 points of last night's finals. Later the market railed on covering and support from spot houses, and while closing prices were 4 to 3 points lower on the near months, October and later positions showed slight gains. After 2 o'clock, when resolutions in memory of expresident Cleveland were passed, there was comparatively little business and at no time during the day was trading active or general. A private crop report issued by a Wall was trading active or general. A private crop report issued by a Wall Street house placed the condition at \$2.6, against the government's report of 79.7 last month. July notices were said to have been finally stopped by spot people.

NOTHING DOING IN STOCKS.

Halt to Pay Tribute to the Memory of the Late Former President Cleve-land Further Hampered an Already Dull Market.

New York, June 26.—The decision to pay tribute to the memory of ex-President Cleveland by ending the stock exchange session at 1 o'clock to-day served to further curtail the already shrunken proportions of the deslings in stocks. The session was insignificant in every way. Fluctuainsignificant in every way. Fluctua-tions in prices were narrow and shifting in an uncertain manner. The re-dundant condition of the money mar-ket gives promise of being increased by the week's continued inflow of cash to New York and borrowing terms are so easy as to offer no urg-ency to holders of securities to realon them. At the same time demand for securities is well nigh stag-hant. The market, in consequence, is almost deadlocked. Cessation of the pressure against the Rock Island issues relieved the market from a depressing factor, and contributed to the firmer tone. The only semblance of activity was just at the close when prices enjoyed an uplift that placed a half dozen of the leaders a point or more over last night's closing. Bonds were irregular. Total sales par value \$1.184,000.
