NOW ZACH MCGHEE HELPED.

A Contribution to the Success of the Bryan Campaign Fund Which Should Show Leniency. Charleston News and Courier. This telegram has been received by the editor of The News and Courier: DH stamp, 5-33-p. Washington, D. C., July 18, 1908. Get the 5-cent president in meeting street to draw for me twice each on gas and bus; remittance by mail. Zach McGhee.

For the enlightenment of the uninitiated we explain that "DH stamp" means that the message was headed by a telegraph corporation, and that the price, six-cent president, is a reference to prominent gentlemen who have attained to enviable distinction by believing with saintly perseverance that Bryan is going to be elected and who in the course of our faith in the coming of that event.

Zach McGhee is a plain, blunt, honest and unadorned Democrat, who boards in Washington, but votes in South Carolina, and who is rising to prominence as an earnest and energetic man that The Charlotte Observer turns an aneking and assimilating look upon him. In time he will be born in North Carolina, if he shall continue to tread the path of glory.

This act of Mr. McGhee is worthy of emulation. The four quarters that he thus expends will be devoted to a good cause. It is a sportsman-like donation. We shall not resent the implication that we cannot trust us to handle the finances of the campaign—our aim being to raise money for the Bryan and Kern battle. We have no time to quarrel about little slights and suspensions, we let them pass; our energies and thoughts being centered upon the larger objects to be gained.

One dollar is not a great deal of money, but is not to be snubbed. It is a noble spirit; it is a sign of loyalty not less ardent than that of the Roger Sullivan and Herman Riddler kind. Were every Democrat in South Carolina according to his ability to illustrate an eagerness to give for Bryan such as does Zach McGhee, one hundred thousand dollars would be raised in three days. True, the "DH stamp" saved Mr. McGhee a two-cent postage stamp, but persons who will give us money at this point in South Carolina or elsewhere, may deduct two cents and for twenty-three cents receive a chance for the Gander and Hen.

Meantime, the Gander and Hen are eating their heads off, and it is highly necessary that they be disposed of at once. They may have had a square deal in North Carolina, but their first square meal was received in Charleston.

Messrs. Bryan and Kern have appealed to the farmers of the land for money for the campaign. The appeal should meet with hearty response everywhere in South Carolina, but the farmers should not be allowed to bear this burden alone. Other laboring men, especially those of the McGhee class, the newspaper men, who scratch ferociously for a living, should rally to the assistance of the farmer. Contributions to the Gander and Hen fund from such sources as J. Hal Bagot and W. R. Bradford, of Columbia, would be acceptable. Now is the time for all good men to come to the aid of the party that stands for the rights of more than ten thousand dollars will be indignantly scorned.

CAMPAIGN OF REASON.

Political Discussion Free From Rancor.

Baltimore Sun. On the whole, the press of the United States and the discussion in a spirit free from rancor and devoid of hysteria or vehemence. The leaders in both parties and the orators should co-operate with the press to make this campaign of "light and leading," and seek to influence voters by argument addressed to the conscience and convictions and minds of citizens. The thoughtful press has given party managers very striking suggestions in regard to the campaign of 1908 should be conducted. No partisan who claims to be guided by sincere convictions and absolute honesty of purpose can rightly deny the same virtues to the partisan of an opposing party. No man of independent views will deny that the partisan is exercising an inherent right as a citizen in voicing as a partisan, just as the independent voter exercises an unquestionable and inalienable right in voting his convictions regardless of party. The comments of this discriminating press indicate that in this campaign of "light and leading," especially in the West, of both parties recruiting from each other, with the independent voter an important factor this year, as in the past. With a campaign of enlightenment and reason all along the line, the American people will be enabled to solve their problems with greater regard for the national welfare and the material prosperity of the country than in a campaign of bitter denunciation and dangerous appeals to class prejudice.

Wages of Railroad Men Restored to Former Scale.

Lenoir News. The employees of the Carolina and Northern Railway are wearing smiles these days that won't come off. They all sustained a cut of ten per cent in wages last fall when the panic struck the country and a few days ago they all received notices of a restoration of their old wages, beginning July 1st, 1908. Thus the panic is rapidly becoming "ancient history."

Attempt at Pure-Snatching.

There was another attempt at pure-snatching on South Caldwell street, near Fourth, late last night. The stretch, owing to the darkness of the street, walked up close behind two ladies returning home from up-town and laid hold to the purse of the elder as she entered her gate. Both screamed and the villain fled as neighbors looked on to the scene. The police were notified but nothing could be done.

All the Ground Will Be Used.

At a meeting of the members of the Southern Manufacturers' Club last night, it was decided to use all of the ground comprising the two lots recently purchased for club purposes at the corner of Trade and Poplar streets, and the committee having in hand the plans for a suitable club building to cost not less than \$50,000 nor more than \$60,000. The meeting was well attended.

PROPOSAL.

Sealed bids will be received by the City Council of Spartanburg, S. C., until 2:30 p. m. on Monday, August 10th, for about 20,000 square yards of granite block paving. Bids will also be received for 20,000 cubic yards of crushed granite, and for 200,000 blocks 4-in. to 12-in. long, 3/4-in. to 4-in wide and 4-in. to 7-in. deep, to show clean, square fracture.
