

Entirely Different From All Others

THE fact that our whiskey cure has been reduced from the original price of \$100 to \$50 cannot properly be construed to indicate the necessity of for this lack of patronage. On the other hand, we are fully convinced that the original price prevented a great many good people from obtaining the relief which our treatment affords. We occupy an entirely different position from any other so-called whiskey cure establishment in the United States by reason of our owning outright the formulas for all medicines used in our treatment. We pay royalty to no parent corporation and live under no restrictions or directions from another corporation. The royalties and penalties imposed on others is saved and this is the benefit we are giving to our patients. In making the reduction in price there is not a change in the administering of the treatment, every accommodation formerly given in our well appointed Sanitarium is given now, positively every feature is continued. Remember every statement we make is backed up by our guarantee, after a successful experience in the cure of the whiskey habit in all parts of the United States for the past twenty years. A further evidence of our successful operations is many letters of endorsement on file in our office from Governors, United States Senators, Judges, various State, County and City officials, Bankers, Railroad Presidents and other prominent people.

We Will Make Good Every Guarantee.

We Own Our Own Formulas and Pay no Royalties.

Ask For the Many Testimonials We Have.

Don't Wait to Make Arrangements, Wire Us and We Will Meet You.
