Col. Frank A. Dillingham is becoming more far-reaching in its effect as each day passes. The indisputable proof of the great good he is accomplishing is spreading throughout this section and from all parts come inquiries for information of the Plant Juice remedies from those stricken with disease and affliction, and letters of praise from those who have been brought back to health and happiness through their use There appears to be no limit to the effectiveness of this wonderful remedy in the battle against disof the stomach and digestive gans it has proven of invaluable worth, and the following story of J. D. Henderson, a show and story of J. D. Henderson, a shoe salesman em-ployed in this city, shows that Plant Juice can conquer dyspepsia, the most dreaded of all stomach disorders. Mr. Henderson called at the W. L. Hand & Co. drug store, where Colonely Dillingham's representative makes his headquarters, and said: "I have been a sufferer from stomach trouble for years, but only within the last two years have I realized that I was a victim of dyspepsia. In my case there was no mistaking the disease and the hold it had on me. It was a rare thing for me to retain food upon my stomach. At times I had no annealize and at other times I had no appetite, and at other times I would have a morbid craving for food. I was irritable, sluggish, exfood. I was irritable, sluggish, ex-tremely melancholy and all the troubles that I did not possess were firmly fastened upon me by my imagination. I took all sorts of medicine for dyspepsia, and all kinds of treatment for my imaginary dis-eases, all of which made my stomach WOLSE

When Colonel Dillingham first began the introduction of Plant Juice in Charlotte I learned all I could about the remedy and became con-vinced that it was worthy of a trial. The fact that it was sold under a strong guarantee that the money would be refunded also appealed to me as a fair proposition and I invested two dollars in two bottles. I was hardly able to notice any im-provement after taking the first bottle, but had taken but a few doses bottle, but had taken but a few doses from the second when a decided change in my condition became evident. I no longer abhorred the sight of a table and began to take a little interest in life. My stomach rapidly gained strength and now, while taking my fourth bottle. I can truthfully say that I am well and know that the full course of six bottles will place me forever beyond the reach of dyspepsia."
