leads through it. I was told by an Asheville man that the extremely rich people from the North do not go to Asheville now nearly so much as they did a few years ago, but the bulk of the winter visitors are of what some people are pleased to term "the middle class." The very rich change fashions quick-ly, climate, etc., being mere incidentals so far as they are concerned. The "middle-class" people may not have so much money but they are good stayers. In the summer Ashe-ville and all these mountains are full of people from the far South. It is said in spite of the hard times that there have been 100,000 such in the North Carolina mountain region. In the most remote places they are found, at farm houses and at tiny inns. Some live in tents and rough it, really the best life of all.

Each evening the usual attractive programme will take place, and the public is invited to come out and enjoy it.

The Deposit-Guarantee Plan. Petersburg Index-Appeal.

Without professing expert knowledge of banking and finance, the plan seems to us to be practicable and well established in common sense. Mr. Bryan does not claim to be the author of the plan, or that it is original with the Democratic party, or that it is even novel. But, we think, he will have no difficulty in convincing the average depositor that it gives him ample security, and that these will be no more occasion for runs by depositors on national banks after the passage of such a law by Congress. On the contrary, the law will operate so successfully that all State and private banks will have to adopt the plan or go out of business for lack of depositors.

VIRGINIA COLLEGE For YOUNG LADIES, Roanoke, Va. Opens Sept. 24, 1008. One of the leading Schools for Young Ladies in the South. Modern building. Campus of ten acres.
