COTTON.

New York, Sept. 9.—The cotton market was more active and firmer to-day with the close steady at a net advance of 7 to 17 points.

The market opened steady at an advance of 2 to 13 points in response to better cables than expected but after some further slight gain on covering eased off as a result of realizing by recent buyers and a renewal of bear pressure, which had the encouragement of favorable weather reports. The decline carried the active months off to a net loss of 3 to 5 points, but offerings were not heavy at the lowest level, and toward midday the market became much firmer and much Wilmington.

Daily Cottos Market.

New York, Sept. 9.—Galveaton, tone steady; middling 94; net receipts 1,559; eontinent 11,29; constwise 2,807.

New Orieans, tone steady; middling 94; net feccipts 432; gross receipts 1,850; stock 25,97; constwise 43.

Mobile, tone steady; middling 94; net feccipts 432; gross receipts 432; g market became much firmer and much more active, with one of the local houses that had been very prominent on the bear side during the recent decline, an aggressive buyer. The advance was enraged by reports of an improvement in trade contracts, rumors that German and French spinners were covering in Liverpool, and further reports of steadier spot markets in the interior of the South. October shorts showed considerable nervousness, covering on a scale up and at time during the afternoon October sold at 8.33, or 22 points net higher, while later positions were 14 to 15 points higher. The close was off from the best under realizing. Southern spot markets officially

reported were generally firmer.
Private advices reported that the interior markets were from ¼ to ¼c. higher. Receipts at the ports to-day 21.491 bales against 10,077 last week and 13,544 last year. For the week 110,000 against 79,333 last week and 99.130 last year. To-day's last week and 99.130 last year. To-day's receipts at New Orleans 1,850 against 1,050 last year, and at Houston 7,624 against 4,691 last year.

STOCK MARKET.

New York, Sept. 9.-An unusual thing about the current upward movement in prices in the stock market is the freedom with which admissions are heard of the part played in it by professionalism. Admonitions to this effect are common to most of the market letters, and advices sent out by commission houses to their clients. A small combination of very wealthy capitalists is given credit for the summer rise in prices, and there is no disguise of the belief in the large part played by manipulation in the advance.

There was as little news as lately usual to explain the upward movement of stocks to-day. The Western Union statement of earnings for the September quarter had some effect on sentiment with its transformation of a deficit last year \$1,961,581 into a surplus this year of \$769,148. The day's crop news did not quite the feeling of anxiety over the corn The day's changes in the money market were not perceptible in the quotations. The rise in discounts in foreign exchange here has revived discussion of the possibility of gold exports again. The requirement is supposed to be for large forthcoming government loans abroad. There was a small transfer of currency vator. Options %c. net lower, Septembe to New Orleans and other indications 104%; December 104%; May 106%. of a rise in the tide of the currency Corn steady; No. 2, 89 nominal elevator movement towards the interior. Sales to Options %c. net higher; September 89% realize profits had some slight effect in December 79%; May 74%. reducing the day's extreme advances. Bonds were firm. Total sales, par

ter than due this morning with the improved spot demand from Manchester again the feature, spot sales reaching 10,although the demand for spot goods is 600 bales. Our market opened lower as fairly strong. compared with the cables, but almost imcompared with the cables, but almost immediately improved on a demand from the. October shorts which absorbed all offerings and gradually brought about an 1 to 1½ per cent.; ruling rate and clossimprovement in the whole market. This ing bid 1; offered 1½. Time loans firm; demand for October continued the tea-ture in the afternoon, gradually widening the differences between the months. The South did not generally follow the ad-bankers' bills at 484.75 to 484.55 for 60vance with buying orders, but they were day bills, and at 486.35 to 486.49 demand. less free sellers. Wall Street sold quite Commercial bills 484 to 484%. Bar silver freely on the extreme advance, easing 511/2. Mexican dollars 46. prices off somewhat from the top.

Our late cables from Liverpool reported freer offerings from the South this atternoon without an increased basis and changed, also stated that there were prospects of settlement in the Manchester labor disputes; although spinners were disposed ern on grade 94% to 97%. to go on short time. There is undoubted-ly somewhat better demand from spinners at 8½ cents which should steady the market pending an increase in receipts.

Tickling or dry Coughs will quickly loosen when using Dr. Shoop's Cough Remedy. And it is so thoroughly harmless, that Dr. Shoop tells mothers to use nothing else, even for very young bables. The wholesome green leaves and tender stems of a lung healing mountainous shrub give the curative properties to Dr. Shoop's Cough Remedy. It calms the cough, and heals the sensitive bronchial membranes. No optum, no chieroform, nothing harsh used to injure or suppress. Demand Dr. Shoop's Accept no other. Sold by Mullen's Pharmacy.

CATLIN & CO. To the Man Who Has Saved Something

> Dear Sir: You expect to be able to give your family every comfort as long as you live, and if you should chance to die they will have the income on the capital you have accumulated.

> But have you made a computation recently: first to determine the exact amount of acome which this capital will yield and, second, to determine whether mat income will be sufficient in view of the increased cost of living?

If the result of your investigation is satisfactory, you will still find it a good thing to safeguard your capital by means of a life insurance policy. But if your investigation shows that your capital is insufficient, then I think I can show you that an immediate investment in life insur-ance will be not only profitable but

By paying a small annual premium you can get a Standard Equitable Policy, which will instantly add 25, 50 or 100 per cent, to your capital, even if you die to-morrew. And if you live, you can add your future 1234 sayings to this new capital. It will give me great pleasure to
