DILWORTH WANTS BITULITHIC

Property Owners Petition City to Lay Bitulithic Pavement in From Morehead to the Baseball Park, the City to Pay Half and the Property Owners On Each Side One-Fourth.

A significant meeting of the residents and property owners of Dilworth was held last night at Dilworth Hall in response to a call issued at the instance of many. The purpose of the gathering was to ascertain what are the wishes of the citizens of Dilworth in respect, especially, to street work. It was understood that the city was contemplating using the privilege of convict labor to lay macadam in this section.

The meeting last night put forth a counter proposition. It is this: that bitulithic pavement be laid on Boulevard from Morehead to the baseball park, the city to pay half the cost and the property owners on either side one-fourth. The situation here is somewhat different from that up town, where the street car company entered into the situation. The Dilworth streets are about 75 feet wide. It is proposed that on either side of the undisturbed car tracks there will be a strip of grass-covered, tree adorned land. Beyond this on either hand should come the pavement.

Mr. C. B. Bryant was chairman of the meeting last night and Mr. R. G. Bryce secretary. Thirty of forty were present. It was voted as the sense of the meeting that the city be requested to provide adequate fire protection and water facilities for Dilworth at the same time the new streets are laid.

A committee will be appointed to solicit signatures to the petition, which shall set forth the details herein enumerated, and to ascertain the costs of such improvements. The petition will be presented to the board of aldermen at its next assembling. The idea set forth by the Dilworth property owners is that if the bitulithic is laid, the city can be using the convict labor somewhere else in town.

Giving Away Skates Nightly at the Park

Miss Nellie Sloop, blindfolded, drew the lucky number from the hat at the Vatis Park skating rink last night to decide who won the \$5 pair of skates, which will be given away every night this week. No. 4 was the winner. This number was drawn in the afternoon and hence it is not known who was the winner, as he was not present last night when the decisive test was made. If he does not call for the skates by Saturday another drawing with the same cards will be made. The skates are high grade.

Large crowds were out last night. A coupon is given in the afternoon and one at night, affording thus two chances at the skates for those who go to both.

A pleasing, good, high-grade, truly favored, amber colored cup of coffee can be had—without the real coffee danger, or damage to health—by simply using Dr. Sloop's Coffee substitute, called "Health Coffee." Pure, wholesome, roasted cereals, malt, nuts, etc., make Dr. Sloop's Health Coffee both healthful and satisfying. No 3 to 5 minutes before being "Made in a minute," says Dr. Sloop. If served as usual, it's taste will even trick an expert. Test it and see. Miller-Van Ness Co.

WHISKEY LICENSE AGAIN DRUGGISTS STILL PERSISTENT

An Ordinance Introduced at Aldermen Meeting Last Night to Grant Druggists the Right to Sell Whiskey on Prescription, Goes by One Reading and Will Try Another One Tonight—Colonel Kirkpatrick Strongly Opposes, Saying That Records Show Decrease in Drunks of 50 Per Cent. Since Licenses Were Taken Away—Mayor Franklin's Attitude in Full—Colonel Maxwell Resigns.

An ordinance authorizing the sale of whiskey by the druggists on prescriptions passed its first reading last night at the meeting of the board of aldermen, those voting in favor of it being Messrs. Wadsworth, Hart, Chambers, Bland, Scott, Williams, Cave, Shoemaker, Severs, Maxwell and Garibaldi. Messrs. Kirkpatrick, McKensie, Smith, Haywood, Kious and Bunn voted against it. The motion to suspend the rules and put the ordinance on its second reading failed, the same vote being recorded. It required a two-thirds vote, however, to pass this motion. The matter was brought up by Mr. W. J. Chambers, who thought the druggists had been done a great injustice and that the aldermen were making criminals out of respectable citizens who were obliged to allow doctors whiskey in some cases. Colonel Kirkpatrick did the majority of the opposing from the floor. He thought the board would do the "baby act," which it has been guilty of before, if the former action taking away the licenses was reversed.

MAYOR FRANKLIN RULES

Mr. Chambers first made the motion that the action be reversed and this was ruled out of order by Mayor Franklin, who declared that it must be brought up in the shape of a resolution. A somewhat lengthy argument resulted, in which Messrs. Maxwell, Scott, Kirkpatrick, Bunn and Williams participated. Captain Franklin made the following statement of his attitude toward the question:

"When the question of licensing the drug stores to fill prescriptions first came before the board I stated that I was somewhat inclined to think it might be best to grant the license and require certain fee or tax on each prescription, but when the question came to me on a tie vote, being in favor of prohibition, and believing I knew the sentiment of the people, and having been informed that the drug stores, as well as the physicians, or at least some of them, wanted the filling of prescriptions for alcohol taken out of their hands, I did not hesitate to cast my vote for no license. Subsequently the Medical Society endorsed the action of the board.

"It has now transpired that some of our strongest prohibitionists do not favor prohibition but a dispensary, and this I am opposed to, and the drug stores do want the privilege of selling whiskey.

PROHIBITION LAW VIOLATED. I do not hesitate to say that in the prescription business it is carried on in the future as it has been in the past, it will be best to have the open saloon. We can, to some extent at least, regulate the saloon, but it is next to impossible to control and regulate the prescription business, if the doctors and drug stores have any disposition to ignore the law.

"If the druggists will petition the board to grant them the privilege of filling prescriptions and will state in the petition they have not violated the law in the past twelve months and until January 1st, 1909, and will continue to do so, I will have the open saloon. We can, to some extent at least, regulate the saloon, but it is next to impossible to control and regulate the prescription business, if the doctors and drug stores have any disposition to ignore the law.

"No license should be granted to a drug store who would not be willing to accompany the petition with a statement to the effect that he has not, and will not, violate the law; nor head wires on North and South Tryon streets and East and West Trade streets be placed underground; that the sidewalks where the bitulithic pavement has been laid be renovated in order to bring about uniformity. In his report there were several other recommendations of minor importance and the board received it as information.

Mr. Chambers read a letter from Mr. W. A. Gore, superintendent of this division of the Seaboard railroad, "Climax, the Coal of Quality."

live to the overhead bridge which it is proposed to erect over the track east of the city in order to connect Piedmont and the Elizabeth sections by way of Clement avenue. Mr. Gore asked that the bridge be placed at a uniform height of 22 feet. In view of the fact that additional tracks were to be laid out there just as soon as the new C. C. & O. road was completed. No action was taken on this matter, the report being received merely as information.

SEWER TO COST \$7,000

A proposition from Mr. C. W. Johnston on behalf of the Highland Park Manufacturing Company was read by Colonel Kirkpatrick and had to do with the laying of a line of sewer from the concern's property in North Charlotte. The plan proposed by Mr. Johnston was that the Highland Park Manufacturing Company be allowed to lay sewer, now and be paid for it by the city in annual installments of \$1,000. To prosecute this work, the board deeming it a wise measure, a special committee consisting of Messrs. Williams, Bland, Scott, Smith, Kirkpatrick and Garibaldi was appointed with power to act.

THAT ABBATTOIR AGAIN

As persistent as the drug store licenses question, the old abattoir matter arose again and was introduced this time by Mr. E. R. Preston, who appeared for a number of outside butchers. He said that they were being made to suffer on account of the fact that no slaughter-house was being built, and that they would sign of any belg; built soon. He showed the board why they were being imposed upon by an ordinance passed some weeks ago making it prohibitory for any butcher to slaughter and offer any for sale except through the licensed abattoir. This ordinance, he said, was to go into effect the 1st of October and yet no move had been made to erect the slaughter-house. The ordinance was suspended until January 1st to which time Mr. Arnold Shaw is given to put in operation this institution.

WANTED TAX REDUCED

Mr. Scott, the guardian of the license act of the city, stated that a representative of the Ringling Bros. show wanted the city to reduce the tax from \$200 to \$100 upon such performers. The board agreed to do this in case the county will come to the same terms.

Mr. E. F. Newell secured the removal of the tax of \$10 upon Mrs. V. Dunnagan, who makes cigars. Mr. Joe Kiousse got a new license put upon the dealers in meats outside of ten blocks from the market, this being a \$25 tax. He said that cold weather was coming and every little merchant in the city would sell hog or a calf, while the regular dealers were made to suffer loss all during the summer.

The meeting to-night on the drug store question will be lively and it is very likely that the interest in this subject will attract a good crowd of spectators to the council chamber. The advocates of license feel secure in their victory of last night and will concentrate their powers toward giving the druggists their liberty to sell whiskey on prescription. While the opposition is small, it is lively and persistent and capable of exhibiting a worthy fight.

"THE WOLF" A THRILLER

Treated Charlotte Audience to Good Old-Fashioned Melodrama in New Garb and With Striking Setting. Eugene Walters' "The Wolf," made the Academy crowd sit up and take notice last night. It came across in a fine fashion with the thrills which every body went out prepared to enjoy. The very title of the play suggests its atmosphere. For from the haunts of men and cities lies the scene, away from all touches of modern life with its artifices and its commonplace-ness. It is an ideal spot, furnishing an ideal theme for the superlatively melodramatic—this settler's home in the heart of the Canadian woods, off Hudson's bay.

Jules Braublen, a young French-Canadian, in the person of Andrew Robson, is the hero of the story. William MacDonald, an American engineer, is the villain, although so interesting an one that he wins admiration, though his character is black as Stygian darkness. It is, by the way, rather humiliating to the national spirit that a French-Canadian should play the chivalric part of saving an innocent girl from the clutches of an American villain. Both men set their hearts on Hilda, McTavish, who, as impersonated by Lois Palmer, is a dear little Scotch maiden with golden hair, and spunk. She is strikingly pretty.

Round the struggle of the two men, one good, the other bad, for the possession of the girl, centres the play. The climax comes in the third, when in a desperate fight in the darkness the hero kills the villain and by the flickering light of a match as he lights a cigarette reveals the fact that he is victor. Through the whole runs the theme of the elemental, the primal, from the fierce battling personalities of the men of the howling of the wolves toward the last. It was melodrama, yet, but it was good melodrama and made its audience forget for the once carking cares of every-day life.

Charlotte people enjoyed seeing Louis Haines, the humorous assistant engineer. He made a hit here last fall as a colleague in "Brown of Harvard." The entire cast of "The Wolf" is strong.

Saw Orville Wright Manipulate His Flying Machine

Mr. C. M. Davidson, who with Mrs. Davidson stopped off at Washington on their return from a trip to New York to see Orville Wright perform at his aeroplane, was fascinated with the thing.

"It has exactly the motion of a bird in flying," said Mr. Davidson, to an Observer man yesterday. "At the will of its driver it soars, drops, swoops and goes slow or fast. He seemed to have it under control. The maneuvers were witnessed by a great crowd of people, all of whom are enthusiastic on the subject."

Tickling or dry Coughs will quickly loosen when using Dr. Shoop's Cough Remedy. And it is so thoroughly harmless, that Dr. Shoop tells mothers to use nothing else, even for very young babies. The wholesome green leaves and tender stems of a lung healing mountainous shrub give the curative properties to Dr. Shoop's Cough Remedy. It calms the cough, and heals the sensitive bronchial membranes. No opium, no chloroform, nothing harsh used to injure or suppress. Demand Dr. Shoop's. Accept no other. Sold by Muller's Pharmacy.

Weddington Hardware Co.

When Henry Grady was asked why the Jews had not taken Atlanta, he answered, "The East Tennessee folks got here first."

We fully realized the force of this after an all-day session with a shrewd Chattanooga trader who came by Atlanta on his way to Baltimore to buy an opening bill. While he finally placed the order for Two Thousand Dollars, he never was really converted until he had spent an hour in the factory. Here's what he said:

"I have been in many shoe factories, both East and West; while some of them are larger than yours, I don't believe I ever saw one as well appointed in every detail. You've got a monopoly on these one-piece, all-leather heels. I never saw any one else use them, and these Oak Inner Soles seem to be as heavy as most folks use for Outer Soles."

As we came out, he added:

"You're wise to own all this land around here, for if you keep making shoes the way you've started, the people will find it out, and when they do, you'll have to build this all up in shoe factories."

That's the off-hand opinion of E. W. Kirby, the proprietor of a large Department Store in Chattanooga. A hundred new customers like him means another Shoe factory for the South.

Who's next?

ATLANTA

Letter From Hazen, Ark.

Hazen, Ark., Aug. 10, 1908. Mrs. Joe Pearson, Charlotte, N. C. Dear Madam: The editor of the Goldsboro Argus recommended your Remedy to me some years ago. I was suffering from an abscess in the right cheek bone, known to the Doctors as the Antrum of Highmore.

Although I doctored for two years, none of the doctors really learned what was the matter with me until I met Dr. Crawford, at Atlanta, who operated on me. During the time I used thirty bottles of your REMEDY and I am satisfied that it saved my life, as it kept me from dying from blood poison while the doctor was guessing about what ailed me. Your REMEDY is not for sale in this section of the country. My wife is in a general run down condition and I want to have her try the REMEDY. Please ship me six bottles to Hazen, Ark.

I will do what I can to introduce the REMEDY over here, as I can always truly say a good word for it. Respectfully yours, A. G. ALLEN. A. G. Allen's United Mineral Shows.
