Heart Strength

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Pos-itively, not one weak heart in a hundred is, in itself, actually diseased. It is almost always a hidden tiny little nerve that really is all at fault. This obscure nerve—the Cardiac, or Heart Nerve -simply needs, and must have more power, more stability, more controlling, more governing strength. Without that the Heart must continue

strength. Without that the Heart must continue to fail, and the stomach and kidneys also have these same controlling nerves.
This clearly explains why, as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and alling Hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative—this popular prescription—is alone directed to these seak and wasting nerve centers. It builds; is strengthess; it offers real, genuine heart help.

S. S. S. acts more promptly and pleasantly than any other medicine, and those who are run down in health should commence its use at once.' It will thoroughly purify the blood and tone up the system.
