Four of Injured Discharged From Hospital.

Correspondence of The Observer. Winston-Salem, Sept. 13.—A great Cowies. This is untrue, to say the many persons visited the Piedmont least. None except a few ill-mannered Democrats who were doubtless last night, killing John Parker, a carpenter, and injuring ten others. Pour of the five men who were taken to the Twin City Hospital were able to get out Jo-day, their injuries being gively minor ones. The other

OBJECTIONS TO SCHOOL SYSTEM.

Mr. W. W. Davidson Thinks There Should Be a New Arrangement in the City Schools, With New Nomen-clature—Should Not Look Upon Secondary Schools as Doorways to College—A Three-Part System Sug-

To the Editor of The Observer

Charlotte always has something interesting educationally, and we seem to learn more or less every day con-The project of consolidating the two cerning the modus operandi of our manufacturers' associations now in school system. I have heard much existence in this country is by no means lately pro and con on the subject of new. President MacColl, of the National Association, favored the idea in an adgrade," and it is this feature of the dress to that body in 1907, and in May of Charlotte schools that moves me to that year President Lowe, of the American write. I do not like the term can Association, speaking at Philadelphia to his organization, spoke of the
plan of amalgamation as "the next great
step" in "making the largest, strongest most influential association of cot-manufacturers in the world." far better to leave this term to the teaching force alone, and not allow Hished on May 5th, 1907, quoted President the schools to be outwardly so classi-Another objection, while I am men

"One organization of the kind is enough.
Consolidation will be nefit all parties. And
let the name of the new organization be
"American" and not "National," because
and private—is that they are but
doorways to enter college. I believe "American" means more, both at home doorways to enter college. I believe that if we could get this feeling out Association of Collon Manufacturers—
of our schools everywhere it would be better for the cause of education and would enable us to progress better. Why should the larger per cent. of young people be forced into courses World Record said, editorially:

"The erroneous idea that either or looking to college when they will never go there, and when their great be discouraged. The trade wants one as field of activity will be grappling with sociation. This can be best accomplished on the problems in the university of the two uniting to term one. There should because even the college did not fit that one. It should lear the name lege diploma has been despised be-'American.'

Nothing has come of the movement:
however, as yet. Our monthly contempoat the right point.

Now I am not bringing this criticism to bear on the Charlotte system vote from the more ters of the two or of schools more than upon others. The ganizations. Allowing for a very large thought occurs to me that these could number of duplicates, the total number of be rearranged to great advantage different men making up the two bodies under a different nomenclature, say, primary, grammar, and high school. primary, grammar, and high school. ship, therefore, indicate about a five-to-one sentiment in favor of consolidation, a into departments, such as scientific, business library, and classical. This might take Latin out of the seventh grade, which would not be a serious condition in the long run. Now then the aim should be to make every one of these departments so efficient, that, should the pupil conclude his education here, he would be prepared for ordinary fields of usefulness. Be-Despite Unfavorable Conditions South- sides it would be optional with the era Mills Took More Cotton in 1908 parents in regard to which department they would decide to place their children and would save much mis-understanding and dissatisfaction. Three times within the past ten Each department then might fit puyears Southern cotton mills have pils for some special course in coltaken more bales of American cotton lege or university and save precious than the mills in the rest of the counttime and effort, not to speak of

Another great benefit by such a change in the work in the high school, would be the arrangement and concentration of the present efficient force of teachers by the grade meth-They cannot well carry many desirable which they otherwise would doubtless

wish to do. Finally, I have offered these suggestions not as a criticism upon the present efficient faculty of our city schools, many of whom I know per-sonally, and whose work I have witnessed, but that we may all see how mills was gained first in 1903, which, it sounds to take up the subject in a year, by the way, marked the passing newer fashion in regard to arrangeof the 2,000,000-bale mark by South- ment and nomenclature. All this ern milis, their million-bale record will cost something, of course, but I having been established in 1897. In am as much interested in the city Southern mills were again schools and the Carnegle Library for shead of the milis in the rest of the the culture of head and heart as in country, and in the year just closed the bitulithic pavements for foot and they took 2,193,277 bales, against vehicle, I believe there are many 1.896,661 bales taken by mills in the thinking just as seriously upon these W. W. DAVIDSON.

THE MIVER LOAN FUND.

by the Number of Young Women Who, With Some Help, Could Attend College and Without it Cannot.

When the alumnae of the State Normal and Industrial College considered the selection of a memorial to Dr. Melver, it was unanimously decided to establish a McIver loan The now familiar ox-tail soup is fund. They all seemed to realize that said to have had its origin during a loan fund was the most fitting the Reign of Terror in Paris in 1793, memorial possible. It was always br. Mclyer's desire to render aid to deserving young women in securing a college education. It was his ambi tion to make it possible for every moving the tails, and in cleaning them young woman of the State to be edthe tails were thrown away. One ucated. So in establishing this loan day one of the noble beggars, while fund the alumnae of the college are happening to pass a tannery, noticed but keeping alive his spirit and his pile of discarded tails, and, asking idea of service of the State of North to Carolina.

Many counties have begun this work made what is now famous-the first and the McIver loan fund has already dish of ox-tail soup. He immediately received very many generous contri-teld his friends of the good luck he butions. It is the purpose of the had, with the natural result that the Alumnae Association to credit the tanners were soon annoyed to such amount raised in each county an extent by the demand for ox talls to be used in aiding some 'worthy students from that county in attend. ing the State Normal and Industrial
