Accustomed to the luxuries of life Mrs, Thomas saw nothing in the bare place of the police station upon which she could rest her eyes. It was all a tragic interrogation-point in her estimation. and in the parlance of every day, she was "like a fish out of water." There never for a instant yielded her de-termination. The long distance telephone was kept busy. There was but one fact to find out and that was whether they were married. Mrs. Thomas said they were and Mr. Thomas said they were. When someone hinted of abduction, she raised her voice at once and declared that nobody stole her away. Someone again spoke of the Georgia law relating to marriage and she, overhearing the conversation, stated boldly that she knew what the Georgia law was. 'It allows anybody to marry over 14 years old," she informed the lawyers. There was no doubt that see had made a careful investigation of this point. As a matter of fact there was every indication that every plan had been scrutinized and every possible path of escape had been mapped out. Those looking into her face with its child-like innocence, but woman-like determination, were certain that no breach of the law had been committed by the bold young people, but that she had been confronted with the proposition of a father opposing her marriage, and had calmly determined to outdo him at any cost.
