About 100 men and boys were carried down and while no was killed outright, between 30 and 40 persons, including several of the most prominent citizens of the town, were more or less seriously injured.

Among the worst sufferers is William Hall, a reporter for the Balti-more American, who had both legs and his jaw broken, besides sustain-ing other painful injuries. It is be-Heved he will recover, but he will be badly disfigured.

A fire horror was undoubtedly averted by the cool-headedness of one man who quickly procured a bucket of water and dashed it over the burning coals in the stove which was dislodged when the crash came.
